

Who makes aentron batteries?

The aentron GmbH, founded in Gilching near Munich, is a provider of high-quality lithium-ion batteries for industrial applications. The aentron energy storage solutions are developed and produced in Germany and are characterized by their robust design, scalability, modularity and safety.

What is aentron energy storage?

The aentron energy storage solutions are developed and produced in Germany and are characterized by their robust design, scalability, modularity and safety. Furthermore, due to the modular design concept, battery voltages from 12 V to 900 V are possible allowing a wide range of applications.

What are aentron lithium-ion energy storage systems?

aentron lithium-ion energy storage systems enable you to create modular and scalable battery solutions. We provide operating voltages from 12, 24, 48 Vdc up to 900 Vdc with capacities from 1 kWh to 1 MWh. All energy storage systems of a product group can be scaled modularly and integrated into solutions with third-party components.

Why is aentron partnering with the European Union?

Moreover, aentron is also poised to further reduce the costs of its solutions through its partnership with the European Union on the Horizon 2020 COBRA project and build safer batteries by working collaborations with leading academic institutes.

What are aentron's core competencies?

Discussing the core competencies of the company, Jan Brandt, CEO of aentron, says, "Our batteries are specifically designed for unique applications, and leverage standardised voltage configurations based on our client's needs."
