Regarded as pivotal vines in Albania, these variants collectively contribute to around 35% of the country's overall harvest, underscoring their significance in the nation's viticulture. Debina - Indigenous to the coastal region of Himara, Debina graces the Albanian vineyards with its crisp and invigorating character.

My only direct experience of Albania came as a child when I was on holiday with my family in Corfu. We were on a boat tour a few miles from the Albanian coast when a coast guard boat made it very clear we were not to get any closer. The Cold War was a bit colder there. Europe's own North Korea. Happily, things are changing.
