Liming Chen"s 18 research works with 290 citations and 1,327 reads, including: Enhanced the Energy Storage Performance in AgNbO₃-Based Antiferroelectric Ceramics via Manipulation of Oxygen Vacancy

20250416 ? ? 20250415 : 20250415 ...

Recently, a research team led by Professor Zeng Jie from Anhui University of Technology (AHUT), in collaboration with the University of Science and Technolog... Lu Lin Leads Delegation to Japan and South Korea 2024-08-30.

Her current research interests mainly include the design of novel nanomaterials for clean energy, especially for batteries and the fundamental science of energy-storage systems. She was selected as a Thomson Reuters Highly Cited ...

Anhui University of Technology; Donghong Wang; ... zinc-based batteries open up new vistas for large-scale energy storage. However, their stability, lifetime, and reversibility are impaired by ...

Institutes of Physical Science and Information Technology, Anhui University, Hefei, 230601 PR China. Contribution: Resources (supporting), Supervision (supporting), Writing - review & editing (supporting) ... It proposes ...

Anhui University of Technology: Ma"anshan Shi, CN . 2022-06-13 to present (School of Materials Science and Engineering) Employment Show more detail. Source ... Energy Storage Materials 2023 | Journal article DOI: 10.1016/j.ensm.2023.02.001 EID: 2-s2.0-85149058192 ...

Anhui University of Technology ... Hydrogen energy is considered to be a desired energy storage carrier because of its high-energy density, extensive sources, and is environmentally friendly. The ...

Energy, 2024; 2.Efficient and flexible thermal integrated pumped thermal energy storage through composition adjustment.Carbon Neutrality, 2024; 3.Performance enhancement of combined cooling and power cycle through composition adjustment in off-design

The Tsinghua University (EEA) - Anhui USEM Technology Co., Ltd. Flexible Compressed Air Energy Storage Joint Research Center's initial phase lasts for five years, with a total funding of 50 million yuan. It aims to promote the continuous development of ...

About: Anhui University of Technology is a education organization based out in Ma'anshan Shi, China. It is known for research contribution in the topics: Chemistry & Microstructure. The organization has 7581 authors who have published 6470 publications receiving 85890 citations.

Standing Director of the System and Equipment Subcommittee of the Energy Storage Technology Committee of the Energy Storage Committee of the IEEE PES China (2020.1-2023.12) Achievements Prof. Wang has been working on ...

From 2021 to 2022, he was a full-time Lecturer with the Xi'an University of Technology, Xi'an, China. He has been a full-time Postdoctoral Research Fellow with Anhui University since October 2022. His research interests include energy storage modeling, battery fault diagnosis and energy management, and optimal scheduling of integrated energy ...

Changzhou YUAN | Cited by 22,129 | of Anhui University of Technology, Ma'anshan (AHUT) | Read 255 publications | Contact Changzhou YUAN ... advanced electrochemical energy storage technology has ...

Welcome to the Advanced Battery Group in the Department of Thermal Science and Energy Engineering at the University of Science and Technology of China (USTC). The group is founded in 2018. We are ...

LANG Jiahong, LIU Ke, LAN Xianglong, ZHENG Shicheng. Research on Bilayer Energy Scheduling of Hybrid Energy Storage Microgrid System[J]. Journal of Anhui University of Technology(Natural Science), 2022, 39(3): 306-311.

: ,? (1)? ...

Among the currently developed electrochemical energy storage battery systems, aqueous zinc ion batteries (AZIBs) have attracted wide attention from researchers due to their safe operation,...

Anhui University of Technology. Jian Zhou. Anhui University of Technology. Lizhi Xu. Anhui University of Technology. Jianxiang Ding. Anhui University of Technology. ... Abstract. Antiferroelectric (AFE) ceramic capacitors are promising candidates for energy storage applications in advanced pulsed power capacitors (APPCs) due to the high power ...

Anhui University of Technology; Zishan Ahsan; ... (~ 372 mAh g⁻¹) cannot meet the ever-growing demand for new energy electric vehicles and renewable energy storage. It is essential to replace ...

Hejun Yang, Anhui Province Key Laboratory of Renewable Energy Utilization and Energy Saving (Hefei University of Technology), Hefei 230009, China. The battery energy ...

All Right Reserved. :1530 :243032 TEL:0555-2311570 TEL:0555-2311892 ...

The charge/discharge of distributed energy storage units (ESU) is adopted in a DC microgrid to eliminate unbalanced power, which is caused by the random output of distributed ...

Enhancing the energy density is an imperative challenge in the advancement of aqueous zinc-iodine (Zn-I 2) batteries, which hold great promise for grid energy storage systems. Achieving the reversible conversion reaction of high-valence iodine species, particularly I^+ / I^0 redox chemistry, offers a substantial potential for improved energy density. In this study, ...

1998 B.S. in Analytical Chemistry; Anhui University of Technology; Working Experiences. 2020.11-present Professor Department of Chemical Engineering Tsinghua University ... 2016 National Program on Key Basic Research Project of China: High efficient nano materials and devices for energy storage (Chief Investigator)

∴, ...

Haowei Hu is an Associate Professor and doctoral supervisor at Anhui Jianzhu University, China. He received a Ph.D. in Power Engineering and Engineering Thermophysics from Xi'an Jiaotong University in 2016. His research focuses on condensation phase change heat and mass transfer, micro-nano scale flow and heat transfer, waste heat recovery and ...
