

Why should you use Eaton's energy storage system?

With Eaton's energy storage systems, homes and businesses gain access to a safe, reliable and efficient power management that harnesses the full potential of renewable sources. Now you can store energy when it's available and when rates are at their lowest, and use it when you need it.

Why should you choose Eaton?

As the energy transition evolves globally, Eaton remains committed to helping customers safely add more renewables, energy storage, and electric vehicle infrastructure to their energy mix - to become more sustainable and resilient while lowering energy costs.

What is Eaton xStorage compact?

Eaton xStorage Compact is modular and scalable to adapt to changing power capacity needs, from growing local solar production to an increased number of on-site EV chargers. xStorage Compact is an all-in-one single rack energy storage system with a small footprint that is suitable for both commercial and industrial buildings.

How do I contact Eaton xStorage compact?

Contact sales via web form by clicking the link above, or call us: +44 (0) 1753 608 700, option 2 then option 2

Contact us via web form by clicking the link above, or call us: +44 (0) 1753 608 700 option 3, then option 2

Eaton xStorage Compact is an all-in-one single rack battery energy storage system that fits into limited space.

What does Eaton do?

Eaton's mission is to improve the quality of life and the environment through the use of power management technologies and services. We provide sustainable solutions that help our customers effectively manage electrical, hydraulic and mechanical power - more safely, more efficiently and more reliably.

Does Eaton use lithium-ion batteries?

Eaton works with lithium-ion battery technology from Nissan, the world's leading electric vehicle manufacturer by volume. Eaton xStorage Compact is modular and scalable to adapt to changing power capacity needs, from growing local solar production to an increased number of on-site EV chargers.

Perfect for microgrids, distributed energy resources, DC fast charging, and Buildings-as-a-Grid, the Eaton xStorage battery energy storage system (BESS) provides reliable, fossil fuel-free backup power for buildings and data centers.
