

What does a solar distributor actually do?

A solar panel distributor plays a role in the supply chain by purchasing panels from manufacturers and then selling them to retailers or end users. They serve as intermediaries between manufacturers and consumers for managing inventory logistics and ensuring panel deliveries.

How to become a successful solar panel distributor?

Even large venture capital firms invest in profitable solar projects. With a promising business plan keeping in mind the needs of customers and investors, it should be easy for you to get investments or a business loan. In this way, you can be a successful solar panel distributor. Investing in reliable equipment is crucial for solar businesses.

Why do we need solar power in Tonga?

Renewables like solar are a significant means for Tonga to expand energy access, stabilize power grids as well as reduce pollution. Considering the shortage of solar expertise and finances for countries like Tonga, the role of independent power producers and the practice of PPA provide solid support to smooth the way for solar deployment.

Who are Sunergise New Zealand & Tonga Power Limited?

This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB). Sunergise led the construction and meanwhile united local Tongan civil, mechanical and electrical sub-contractors to the team.

Where is Tongatapu solar farm located?

Prime Minister of Tonga today announced the official launch of the 6-MW power purchase agreement (PPA) based Tongatapu Solar Farm located at Fualu, Tongatapu, which has supplied electricity to over 10,336 households since August this year.

What are the opportunities for solar distributors?

Below are some of the opportunities for distributors. 1. Distributor Program: Solar companies are actively seeking distributor partners to address global energy access challenges. Distributors should possess expertise in sales and marketing of home systems and a robust network of sales agents would facilitate an implementation. 2.
