I work in the solar industry as a solar educator and write to a global audience on everything solar PV. I had a

look at ReNu Solar's website and have some valuable feedback for you. They call themselves "experts" after being in operation for just a decade and also mention they have transitioned into solar, so even less time to become experienced.

I had Renu install my solar system installed in December of 2022, up and running early 2023. I am very happy with how the system operates, everything is as expected there, On the customer service side though, when we signed our contract in July of 2022, we paid extra to have a tree that is blocking part of our panels trimmed back to maximize sunlight.
