

Is there a battery for solar electric cooking?

Battery types, packs and arrays suited to solar electric cooking appear technically possible. There is, however, a shortage of key independent data for this particular type of use and duty cycle specifically for applications with extended periods of high current use (a deep discharge at high C rate) at elevated temperatures

Does Aitutaki have solar power?

At the moment, Aitutaki is a power system 100% supplied by diesel generators (3 x 600 kW). During Stage 1, 1 MW of solar PV will be installed on the island which will run in parallel with the existing diesel generators. At this stage, instantaneous renewable energy penetration will be up to 70%.
