The general size of Bolivian companies. The Bolivian largest companies can be seen in the order of a few billion dollars in total assets and several tens of millions of dollars in annual income. They are certainly small compared to companies from overseas, but compared to Bolivia's total GDP, which is around \$40 billion, they are certainly big.

In Bolivia, it is estimated that solar thermal installations will increase at a pace of around 500 per year across the country. This growth is obviously too slow considering Bolivia's solar potential. Its radiation is so high that many applications of solar thermal energy could be used. However, the domestic market is emerging and there ... Continue reading Solar Thermal ...
