

Who is tesvolt AG?

TESVOLT AG is one of the innovation and market leaders for commercial and industrial energy storage system solutions in Germany and Europe. TESVOLT products enable companies to end their energy dependency and play a part in the energy transition. The agile company produces intelligent lithium storage systems with power ratings from 10 kilowatt

Who is tesvolt & how will it work?

The park will be operated jointly by the local energy supplier EWR AG, the PV and storage project developer W POWER, and the construction project developer TIMBRA. TESVOLT is supporting the project development, supplying and installing the large-scale storage system, and will take over service and maintenance for the storage power plant.

Where is tesvolt made?

TESVOLT manufactures its commercial storage system solutions in series production at its own carbon-neutral gigafactory in Lutherstadt Wittenberg and delivers them worldwide.

How reliable are tesvolt storage systems?

TESVOLT storage systems have amply proven their reliability, safety and cost-effectiveness through over 4,000 projects worldwide.

What are some alternatives to tesvolt?

Alternatives and possible competitors to TESVOLT may include HyperStrong, Caban Systems, and Electrochaea. TESVOLT AG is one of the innovation and market leaders for commercial and industrial energy storage system solutions in Germany and Europe.

What is tesvolt E-drive?

The innovation and market leader TESVOLT is focused on commercial and industrial energy storage solutions in Germany and Europe. Its new joint venture has developed a battery system that will enable significantly more ships in the maritime and inland shipping sector to be equipped with clean e-drives for the first time.
