Are Franklin batteries compatible with other energy products?

Being fully compatible with other energy products like solar panels and even backup generators, the Franklin battery is a one-stop shop for all of your family's home energy needs.

Is Franklin home power a good battery system?

In AC-coupled battery systems like Franklin Home Power, efficiency tops out at around 90% because the current has to be inverted on its way into the battery and on its way out. With that in mind, the aPower's round-trip efficiency of 89% is on par with its peers. The FHP system can operate in three different modes.

Is the Franklin home power system compatible with solar inverter brands?

The Franklin Home Power system is definitely compatible with major solar inverter brands like Enphase and SolarEdge and we have yet to come across an instance of incompatibility. Now that we know what's included in the FHP system and how much it costs,let's take a look at what makes this an attractive energy storage option.

How efficient is a franklinwh battery?

The FranklinWH battery has a roundtrip efficiency of 85 percent; this means that for every 10 kilowatt-hours (kWh) of electricity you put into the battery, you'll receive 8.5 kWh of output. In most cases, homes with an aPower will charge and discharge their battery every day. So, how long do FranklinWH batteries last?

Does a franklinwh battery deteriorate?

The battery life of your FranklinWH will deteriorate in the same way, and that isn't an indicator of a product flaw. All batteries lose some of their ability to hold a charge over time after extended usage, whether it's an electric vehicle battery, a home energy battery, or a rechargeable AA battery.
