

Does Cabo Verde use biomass?

Traditionally, the population of Cabo Verde use biomass as a primary renewable energy resource, which still covers a significant proportion of household energy needs (for cooking), especially in rural areas (55 percent).

What is electric mobility in Cabo Verde?

Electric Mobility (EM) is a recent, but growing reality that could catalyze greater diversification of energy sources and the valorization of intermittent renewable energies in Cabo Verde, with anticipated gains in energy security, price stability, greenhouse gases emission reductions (GHG) and noise pollution.

How will the Electra project support the government of Cabo Verde?

Finally, the project will support the Government of Cabo Verde's goal to mobilize private and public capital for energy sector investments, by increasing stakeholders' capacity and supporting the restructuring and privatization of the electricity utility ELECTRA.

What is the energy sector in Cape Verde?

Cape Verde energy sector is strongly characterized by consumption of fossil fuels (derived oil-primary imported oil), biomass (wood) and use of renewable energy particularly wind and solar power.

Will Cabo Verde privatize Electra?

" The project will build on recent efforts from the World Bank to support the Government of Cabo Verde in the privatization of the electricity utility ELECTRA. A first step has been taken with the enactment of the power sector reform decree law, supported by the Cabo Verde First Equitable and Sustainable Recovery Development Policy Financing.

How much does electricity cost in Cabo Verde?

Electricity prices in Cabo Verde are amongst the highest in Sub-Saharan Africa. Indeed, residential tariffs have averaged US\$0.28/kWh over the past four years but have fluctuated as high as US\$0.36/kWh in March 2019 for higher-consuming (>60 kWh/month) residential users.

Existing studies of energy sustainability in Cabo Verde have dealt with: technical solutions for improving the usage of RE; synergies between the water and energy sectors; proposals to use RE to supply remote locations (Fonseca Duarte 2010; Segurado et al. 2010; Dias 2010; Monteiro 2012). However, none of them has focused on the goal of ...

Ponemos a disposición servicios de transporte aéreo, marítimo, conexión entre las islas, servicios de agente, logística y distribución. El transporte expreso internacional es garantizado por el acuerdo de Rangel con la multinacional americana FedEx que, a semejanza de Angola y Mozambique, está también representada por la Rangel en Cabo Verde.
