

# Commercial electricity prices for energy storage cabinets in Botswana

Does Botswana have a good electricity supply?

According to Statistics Botswana, local electricity generation and distribution has showed a slight improvement, increasing by 10.2 percent from 807,943 MWh during the fourth quarter of 2022 to 890,655 MWh during the first quarter of 2023. The increase was attributable to the performance improvement of Morupule A and B power stations.

What is the price of electricity in Botswana?

Botswana, June 2022: The price of electricity is 0.096 U.S. Dollar per kWh for households and 0.114 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

Who regulates the energy industry in Botswana?

It is regulated by the Botswana Energy Regulatory Authority (BERA). BERA has formulated its new five-year strategic plan which commenced in the financial year 2022 (2021/22) and ends in the financial year 2026 (2025/26).

How much solar energy does Botswana use?

Botswana has tremendous potential for solar energy utilization, with an annual Direct Normal Irradiation equivalent of 3,000 kWh/m<sup>2</sup> in most parts of the country, with an average insolation on a horizontal surface of 21 MJ/m<sup>2</sup>.

Where does Botswana get its power?

In 2023, BPC agreed to procure up to 600 MW of power generation from a yet-to-be-built coal-fired power station. Additionally, Botswana imports the bulk of its power from South African utility Eskom, and the rest from Nampower (Namibia), Zesco (Zambia), and the Southern African Power Pool (SAPP), to make up for any production shortfalls.

Is natural gas a good investment in Botswana?

Substantial natural gas reserves (coalbed methane) exist in Central and Northeast Botswana. Once fully developed, the natural gas deposits could generate substantial downstream opportunities for new natural gas intensive equipment and services. Botswana Department of Customs and Excise. This is a best prospect industry sector for this country.

According to the type of electricity, time-sharing period, and electricity price, preliminarily determine the energy storage time-sharing charging and discharging strategy, determine whether to charge by capacity or by demand, understand the company's production situation, and the annual available time of energy storage.
