

What does a complete solar kit include?

Our complete solar kits offer all-inclusive packages (solar panels, inverters, charge controllers, and batteries), providing everything you need to generate clean and renewable energy for your home, RV, or off-grid adventures.

What are all-inclusive solar kits?

These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation. With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources.

How much does a solar system cost?

The systems and companies in this review range from around \$130 for a 100 watt solar panel, a charge controller and hardware to a system that costs over \$16,000 and includes everything you need for small-scale energy independence.

What are the different types of solar power kits?

Choose from a variety of solar power kits to accommodate your installation needs. Our grid-tied kits include solar panels, inverters and a racking system. The off-grid solar power kits include batteries, solar panels, a power center and your racking system.

Does unbound solar offer complete solar panels?

Unbound Solar offers complete solar panel kits that include everything you need for a solar system. Browse complete solar systems and backup power kits for homes, businesses, boats and RVs, remote industrial, and more.

What do I need to install a solar system?

*Our kits include just about everything you will need. However, you need your own installation tools and grounding rods/wire as well as optional components like surge limiters, and breaker panel/s. We also strongly recommend getting a certified solar installer and/or master electrician for professional installation.

A lot more goes into a solar panel system than the panels themselves. Here's a quick list of the equipment you get when you go solar: Solar panels: Capture energy from the sun. Inverter(s): Converts solar energy into energy that your home can use. Racking equipment: Mounts solar panels to your roof
