

Where is Corvus Energy based?

Bergen,Norwayand Vancouver,Canada - September 6,2019 - Corvus Energy celebrated the grand opening of its automated battery factory in Bergen,Norway.

What makes Corvus Energy unique?

Technological excellencein combination with Maritime DNA has made Corvus Energy pioneers in their field with the highest number of installations worldwide. We believe the combination of clean fuel and fuel cells together with batteries is the solution to reach the goal of zero emissions by 2050 for the marine industry.

How many batteries does Corvus Energy Supply?

Corvus Energy will supply 5288 kWhbatteries for each of three battery-powered harbour tugs to be built at Sanmar Shipyards. The tugs will operate with zero-emissions at the LNG Canada export terminal in Kitimat,B.C. Corvus Energy is the leading supplier of energy storage systems (ESS) for maritime,offshore,subsea and port applications.

Do Corvus batteries save energy?

Corvus batteries make up over half of all the energy storage capacity deployed on board ships today," says Geir Bj&#248;rkel&#248;,CEO of Corvus Energy. "We estimate that our batteries have saved over three hundred million liters of diesel,avoiding almost one billion kilograms of CO2 emissions.

Is Toyota a good partner for Corvus Energy?

Toyota is in the forefront of the development and is by far the best partnerfor us to make this a success," Geir Bj&#248;rkel&#248;,Corvus Energy CEO,commented.
