

Following the successful launch of Orca ESS at the Electric & Hybrid Marine World Expo in 2016, Corvus has won over 30 new projects totalling over 25MWh that will utilize Orca ESS. In total, 100+ projects utilize Corvus ...

"The Orca Energy ESS from Corvus was an extremely compelling solution for this application." said Hans Petter Heggeb&#248;, CEO at Halvorsen Power Systems AS. "By combining industry leading ...

installed base of ESS solutions. This results in the segments highest performing, safest, most reliable and cost-effective product-line which includes: Corvus Orca, Corvus Dolphin Energy, Corvus Dolphin Power and Corvus Blue Whale. Orca ESS Solutions: Zero-emission in port; All-electric operations; Environmental operations; Fuel efficiency

Corvus Energy re-invents the maritime ESS with the Orca ESS product line, setting new standards of safety, performance and economics

The Orca ESS is the first-ever marine battery to get this type approval since the ClassNK rules for marine energy storage systems came into effect in January 2023. The Orca ESS system is suitable for a variety of marine applications and vessel types. To date more than 600 vessels and port applications worldwide have an Orca system installed.

Richmond, B.C - February 23, 2017 - Corvus Energy, the world's leading manufacturer of lithium-ion based energy storage systems (ESS) for maritime industries, is pleased to announce the availability of Orca LQ - a liquid cooled ...

Corvus Orca Energy The Orca Energy ESS represented a shift in the maritime industry when launched in 2016. No other Energy Storage System can compete with the installation count of the Orca Energy system. Outstanding results and the highest level of safety has set the new industry-standard for maritime batteries.

, NORWAY/CANADA -- Corvus Energy is pleased to announce that it has received Type Approval from RINA for its large-scale marine energy storage system, the Blue Whale ESS.. RINA Type Approval confirms that the Blue Whale ESS complies with RINA Rules for the Certification of Lithium Battery Systems. This approval, along with recently awarded type ...

Corvus Energy has secured a deal to deliver a lithium ion-based energy storage system (ESS) for a new multipurpose hybrid vessel, which is set to be owned by the Norwegian Coastal Administration (NCA). The deal has been awarded by Rolls-Royce, which will equip the new OV Ryvingen vessel with Corvus" Orca Energy ESS upon delivery of the system.

The less strict "Propagation Test 2" allows fire suppression to be used during the test series. Corvus Energy conducted more than 20 thermal runaway tests during the Orca ESS development program. Orca ESS has been proven to pass the strict Propagation Test 1, universally considered the toughest guideline to meet in the Maritime ESS industry.

As the leading manufacturer of energy storage systems for maritime applications, Corvus designed and built the Orca ESS solutions portfolio based on the experience from 70+ installations utilizing a Corvus ESS, totaling over 35MWh and 1 million operating hours.

Kawasaki Heavy Industries selects Corvus Orca ESS for battery-powered propulsion system on board all-electric Asahi Tanker vessel. Bergen, Norway and Vancouver, Canada - Corvus Energy is pleased to announce that Kawasaki Heavy Industries has selected Corvus Energy to supply the energy storage system (ESS) for the first zero-emissions electric ...

Richmond, B.C - February 23, 2017 - Corvus Energy, the world's leading manufacturer of lithium-ion based energy storage systems (ESS) for maritime industries, is pleased to announce the availability of Orca LQ - a liquid cooled variant of its ground breaking, next-generation Orca ESS. Expanding the ESS product line, this latest option ...

2 &#0183; The Statue City Cruises ferries will be equipped with Corvus Orca ESS, the most installed marine energy storage system worldwide, used onboard over 700 maritime vessels around the world. The battery system sizes will vary ...

Corvus ESS assists with regulatory compliance and Emission Control Area (ECA) limits while providing immediate benefits with a rapid return on investment. More than 90% of large commercial hybrid vessels utilise a Corvus Energy ESS. More than 50% of the world's vessels with zero-emission technology are equipped with Corvus Energy systems.

Corvus Energy, the leading provider of marine battery and fuel cell systems, is pleased to announce that their Corvus Orca Energy Storage System has received Type Approval from the Japanese class...

Corvus Energy Storage Solutions (ESS) Corvus Orca Energy Corvus Blue Marlin Corvus Blue Whale Corvus BOB Container Corvus Dolphin Energy and Power Corvus ... installation. Features and options Corvus Orca Energy Features oHigh C-Rates -up to 3C continuous oDesigned for voltages up to 1200 VDC oLow installation and commissioning time ...

The Corvus Orca ESS received DNV Type Approval for Cyber Security, indicating that Corvus' control and monitoring system meets stringent DNV safety, quality, and performance requirements related to cyber security. Corvus is pursuing cyber security Type Approvals for its full product range. Learn more about Corvus Energy digital services

Corvus Orca BOB plug-and-play battery room The Corvus Orca BOB containers will each contain almost 1.5 MWh of energy storage capacity and be capable of "fast-charging" the Crowley eWolf tug. The Corvus Orca BOB is a class-approved, modular battery room solution in standard 20-foot ISO high-cube container size.

Orca Energy is part of the recently announced Orca ESS product line from Corvus which is specifically designed for maritime applications. "The selection of Orca Energy for this retrofit project confirms the applicability of the Orca product line for many types of applications along the entire energy-power continuum" said Halvard Hauso, EVP ...

As a result, Orca has become the industry's number one choice for energy storage systems." As the leading manufacturer of energy storage systems for maritime applications, Corvus continues to lead the industry with 90+ installations utilizing a Corvus ESS, now totaling over 50MWh and 1.5 million operating hours. About Corvus Energy

Orca Energy is ideal for applications that are in need of both energy and high power, moving large amounts of energy at an inexpensive lifetime cost per kWh. ORCA ESS is suitable for both all ...

Corvus Orca Energy The Orca Energy ESS represented a shift in the maritime industry when launched in 2016. No other Energy Storage System can compete with the installation count of the Orca Energy ...

The Orca ESS product line, which will make its public debut at the Electric & Hybrid Marine World Expo in Amsterdam, June 21-23, has been developed based on experience from more than 50 vessels ...

Kawasaki Heavy Industries selects Corvus Orca ESS for battery-powered propulsion system on board all-electric Asahi Tanker vessel. Bergen, Norway and Vancouver, Canada - January 28, 2021 - Corvus Energy is pleased to announce that Kawasaki Heavy Industries has selected Corvus Energy to supply the energy storage system (ESS) for the first ...

The Corvus Orca ESS, the most installed marine energy storage system worldwide, set the industry standard for maritime energy storage reliability and safety. The Blue Whale design incorporates the unsurpassed safety features of the Orca, and additionally provides key advances required to meet the energy demands of large vessels.

Norwegian publication, Kystens N&#230;ringsliv, published an interview profiling how Corvus Energy uses digital solutions to remotely monitor Corvus energy storage systems installed on maritime vessels around the world low find an English version of that article translated and republished by Corvus Energy. Photo Caption: Henning Dahl (left) in the Corvus Energy control ...

The Orca ESS product line, which will make its public debut at the Electric & Hybrid Marine World Expo in Amsterdam, June 21-23, has been developed based on experience from more than 50 vessels currently

utilizing a Corvus ESS, totaling over 35MWh installed and 1 million operating hours, Corvus Energy said.

"Once again we reinvent energy storage for ships," states Geir Bjorkeli, CEO of Corvus Energy. "When we launched the Corvus Orca Energy in 2016, we set a new standard for performance, safety and economics in a maritime ESS. "The Corvus Orca Energy became an enormous success when launched and is now on more than 140 vessels worldwide.

The Blue Whale design incorporates the unsurpassed safety features from the Corvus Orca ESS, the world's most installed marine ESS, along with additional design benefits, such as optimized energy density and a flexible, modular design architecture, that make it better equipped to meet the energy demands of large vessels. ... Corvus Energy ...

Bergen, Norway and Vancouver, Canada - Corvus Energy is pleased to announce that Kawasaki Heavy Industries has selected Corvus Energy to supply the energy storage system (ESS) for the first zero-emissions ...
