

How can Croatia benefit from solar energy?

However, to harness this potential effectively, Croatia will need to adopt more ambitious solar energy targets, ensure clear renewable energy investment direction in the power sector, and develop its modern electricity grid. The clean energy transition and development of the solar power sector can contribute to GDP growth and new jobs creation.

Is Croatia preparing to build Eastern Europe's largest energy storage project?

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024. Croatia's latest procurement exercise was significantly undersubscribed, with only 150 MW of submitted projects.

Is solar irradiation a viable energy source in Croatia?

The abundance of solar irradiation in Croatia shall enable photovoltaic energy to become an increasingly cost-competitive power generation source and attract new investments. Croatian solar resource potential Energy Institute Hrvoje Pozar initiated several solar radiation measurements projects in Croatia.

Does Russia still supply natural gas in Croatia?

For now, Russia still has the major role in the natural gas supplying in Croatia, but as it was stated above, the recently inaugurated LNG import terminal on the island of Krk is probably going to be a serious challenge to the Russian gas transmission policy in the whole area.
