

L SWH Non-Pressure Vacuum Tube Solar Water Heater offers efficient and eco-friendly hot water for residential and commercial applications. With a 300-liter capacity, it utilizes vacuum tube technology for optimal solar energy ...

Welcome to Cytek Solar Ltd the leading company in solar energy solutions #solarenergy #solarkenya #solarsolutions #solarproject #iotsolutions.

The Megatank Lithium Battery 960WH (75AH) LiFePO4 offers high-capacity energy storage and long-lasting performance, designed to replace traditional lead-acid batteries. With its lithium iron phosphate technology, it ensures enhanced safety, efficiency, and up to 3000 charge cycles. Compact and equipped with a Battery Management System (BMS), this battery provides ...

The Megatank Lithium Battery 1920WH (75AH) LiFePO4 offers a high-capacity, efficient energy storage solution, designed to replace traditional lead-acid batteries. With a robust 1920 watt-hour capacity and 75 ampere-hours, this ...

The Megatank Lithium Battery 1920WH (75AH) LiFePO4 offers a high-capacity, efficient energy storage solution, designed to replace traditional lead-acid batteries. With a robust 1920 watt-hour capacity and 75 ampere-hours, this lithium iron phosphate battery provides long-lasting performance and reliability. Its lightweight and compact design, combined with enhanced ...

The Hinen Single Phase 6KW Hybrid Inverter is a versatile and efficient solution for managing residential and small commercial solar energy systems. With its hybrid functionality, high conversion efficiency, and integrated MPPT, it offers reliable performance whether connected to the grid or used off-grid. Its compatibility with various batteries and smart monitoring ...

The Megatank 6KW Inverter + 10.24KWH LFP Battery (All-in-One) system features a 6 kW (6000W) continuous inverter with a peak power capacity of 12 kW (12000W), ideal for handling high-power surges. The 10.24 kWh Lithium Iron Phosphate (LiFePO4) battery operates at a nominal voltage of 51.2V and offers up to 6000 cycles at 80% depth of discharge. With efficient ...

The 5KVA Growatt Inverter is a high-performance solar inverter designed to convert DC power from solar panels into AC power with a 5KVA capacity. Featuring MPPT technology for optimized energy conversion and advanced power management, it supports various battery types and configurations. With real-time performance monitoring and robust safety features, this inverter ...

The Supersun 200 Watts Solar Floodlights offer powerful, energy-efficient illumination with 200 watts of

LED light. Designed for outdoor use, these floodlights feature a durable, weather-resistant build, an adjustable solar panel for optimal sunlight capture, and a motion sensor for enhanced security. The long-lasting battery ensures bright lighting throughout the night, while the easy ...

Cytek Solar > Products > Portable Power Stations > 3000W Portable Power Station (With expansion port) 3000W Portable Power Station (With expansion port) PS3000MAX is a powerful and widely applicable outdoor mobile power supply, which can meet the needs of long-term off-grid power consumption.

We design, supply and install solar energy systems for homes, businesses NGOs and Government institutions. To achieve optimization we offer an IOT driven platform coupled with smart energy meters and switches for power management.

We customize solar systems for residential use according to the appliances in the house and the budget. Before buying a solar system for your home, it is prudent to calculate your load(house hold appliances) so as to determine the size and ...

The 8KW Inverter + 10.24KWH LFP Battery (All in One) offers a combined solution for efficient energy conversion and storage. With an 8 kilowatt inverter and a 10.24 kilowatt-hour lithium iron phosphate battery, this all-in-one unit integrates power management and storage into a compact design. It ensures high efficiency, real-time monitoring, and robust safety features, making it an ...

Cytek Solar > Solar Street Lighting. Solar Street Lighting. Solar street lights harness the sun's energy to illuminate public spaces, offering an eco-friendly and cost-effective lighting solution. These lights integrate photovoltaic panels that absorb sunlight during the day, converting it into electricity stored in batteries. ...

The Chint 8KW Off-Grid Inverter is a high-capacity solution for converting solar power into usable AC energy in off-grid systems. With an 8 kilowatt capacity, it efficiently manages energy from solar panels and batteries, ensuring reliable power supply. Its robust design includes safety features for protection and compatibility with various battery types, making it ideal for remote or ...

We are a Renewable Energy company based in Nairobi, Kenya, offering solar solutions to the African Residential and Business sector, as well as IOT driven load management solution to ...

The Megatank 6KW Inverter + 10.24KWH LFP Battery (All-in-One) offers a powerful and efficient energy solution in a compact and integrated design. Combining a high-capacity inverter with a durable Lithium Iron Phosphate battery, this system ensures reliable performance, long lifespan, and superior safety. Ideal for both residential and commercial applications, it simplifies energy ...

Klook Event,2024|Solar 2nd CONCERT [COLOURS] IN MACAU| !Solar!YONGSOON?Concert ...

Cytek Solar Systems allow you to save your money without compromising your electrical loads and

consumption. Smart Home Integration By optimizing energy through our IOT meters, the Remotely controlled home Solar System allows ...

The 22kW Hober Hybrid Three Phase Inverter offers robust performance for large-scale energy systems, integrating solar and grid power with advanced hybrid functionality. Designed for commercial and industrial use, it supports various battery configurations and features high efficiency, real-time monitoring, and comprehensive safety protections. This durable inverter ...

The Hinen Three Phase 12kW Hybrid Inverter is a powerful and versatile solution for managing large residential and small commercial solar systems. With its hybrid functionality, three-phase output, and integrated MPPT, it provides high efficiency and flexibility. Compatible with various batteries and equipped with smart monitoring capabilities, this inverter ensures reliable ...

Watts Tiger Pro Jinko Panels provide high power output and efficiency with advanced monocrystalline silicon cells. These panels are designed to perform well even in low-light conditions and high temperatures, offering durable construction with a strong frame and tempered glass. Ideal for various solar installations, they come with a comprehensive warranty for long ...

The 10KVA Growatt Hybrid Inverter offers high-efficiency energy management for medium to large installations, integrating both solar and battery storage systems. With an impressive 98.4% efficiency, it ensures optimal energy conversion and reliable performance. This inverter supports multiple MPPT channels for enhanced solar harvesting and is compatible with various battery ...

The Hinen 1800W Portable Power Station provides reliable and versatile power on the go with a robust 1800W output. Compact and easy to transport, it features multiple ports for charging devices and appliances, and a high-capacity battery for extended use. Ideal for outdoor adventures, emergencies, or remote work, it combines convenience with powerful performance.

The Chint 8KW Off-Grid Inverter is a high-capacity solution for converting solar power into usable AC energy in off-grid systems. With an 8 kilowatt capacity, it efficiently manages energy from solar panels and batteries, ensuring reliable ...

The Megatank 6KW Inverter + 5.12 KWH LFP Battery (All-in-One) system combines a robust 6 kW (6000W) inverter with a 5.12 kWh Lithium Iron Phosphate (LiFePO4) battery. The inverter supports a peak power output of 12 ...

The Hober Hybrid 3.7kW Single Phase Inverter integrates solar power with grid connectivity to deliver efficient and reliable energy management. With a robust 3.7kW capacity, it supports various battery types and configurations, optimizing solar energy usage and providing backup power during outages. The inverter features intelligent power management for enhanced ...

The Veichi 11kW Three Phase Hybrid Water Pumping Inverter is designed to efficiently power water pumps using a combination of solar energy and grid electricity. With a robust 11kW capacity, it integrates solar and grid power to optimize water pumping operations. Featuring advanced power management, real-time monitoring, and strong safety protections, this durable ...

About Cytek Solar. We are a Renewable Energy company based in Nairobi, Kenya, offering solar solutions to the African Residential and Business sector, as well as IOT driven load management solution to ensure minimal wastage of the generated power. Facebook-f LinkedIn-in Instagram X-twitter.

The TBB (MPPT Controller) 3KVA Riio Sun Inverter is a high-efficiency solar inverter designed to convert DC power from solar panels into AC power. Featuring MPPT technology, it optimizes solar energy conversion and supports various battery configurations. With real-time performance monitoring and robust safety features, this 3KVA inverter is ideal for residential and small ...

A solar-powered borehole offers an energy-efficient, cost-effective, and sustainable solution for reliable water access, particularly in areas with limited grid connectivity. It addresses water challenges while contributing to environmental conservation and reducing long-term operational expenses. ... About Cytek Solar. We are a Renewable ...
