Targeting early 2025, Tesla's Powerwall will support Eaton's new AbleEdge smart breakers and help optimise energy use and extend backup duration during a grid outage.

Phase. Phase is used to describe the two main types of alternating current (AC) electric power produced by a utility, generator or UPS system. Single-phase power includes a single AC waveform, making single-phase equipment ideal for lower power density applications with per-rack power consumption levels up to approximately 2.8kVA (120V), 5kVA (208V) or 7.4kVA ...

Eaton has a comprehensive array of surge protective devices and suppressors to meet your needs ranging from residential to industrial applications.
