

Under EU effort-sharing legislation, Slovakia was allowed to increase its emissions by 13 % by 2020, compared with 2005, and will have to reduce them by 12 % by 2030, but is aiming for 20 ...

Solar energy is one of the most accessible and cleanest forms of renewable energy that can be obtained from the sun. Its use has no negative impact on the environment.

We are based in Bratislava, Slovak Republic; the heart of Europe, a member country of the European Union and the Eurozone. Yes, the Slovak Republic is the country that produces the most cars per capita in the world. And Aeromobil, ESET, and Pixelfederation. We have production capacities in Slovakia as well.

Explore the Ria Formosa lagoon around Faro, enjoying nature on a private and beautifully quiet boat trip on a solar powered boat, while practising responsible tourism. Ria Formosa is one of the most beautiful areas in the Algarve and our solar-powered boats are perfect for exploring it.
