Goods and services were valued on a unit known as a deben. According to historian James C. Thompson, the deben "functioned much as the dollar does in North America today to let customers know the price of things, except that there was no deben coin" (Egyptian Economy, 1). A deben was "approximately 90 grams of copper; very expensive items could ...

Trade networks were essential for the prosperity and growth of Ancient Egypt. The Egyptians traded with Nubia, the Levant, and Mesopotamia, among other regions, engaging in the exchange of luxury items, raw materials, and essential goods. Goods that passed through these networks included gold, ivory, timber, and various types of foodstuffs such as grains and fish.

Egypt's trade landscape is undergoing a dynamic transformation, marked by strategic shifts and innovative solutions to address existing challenges. While the country has ...
