

Will Egypt be the first hybrid solar and battery project?

"This will be the first hybrid solar and battery project in Egypt," said Terje Pilskog. Image: Scatec. Norwegian renewable power developer Scatec has signed a power purchase agreement (PPA) with the Egyptian Electricity Transmission Company (EETC) for a 1GW solar-plus-storage project currently under development in the country.

Where can solar power be developed in Egypt?

Utility-scale PV development has, thus far, clustered around Aswan in the south of the country, where solar resources are strongest and there is plenty of land for development. The biggest chunk of Egyptian solar capacity is provided by the Benban project, which lies 50 km from Aswan and is one of the world's biggest PV sites.

Does empower new energy operate C&I projects in Egypt?

Empower New Energy already operates five 500 kW C&I projects in Egypt for off-takers InterCairo Aluminum, related business InterCairo Extrusion, Cairo Metals, Smart Paper, and medical supplies company AMECO.

Is empower preparing a solar investment with multinationals in Egypt?

Empower is currently preparing three solar investments with multinationals operating in Egypt "that are seeking to decarbonize their operations while at the same time securing a competitive electricity tariff over time," said Empower Chief Executive Officer Terje Osmundsen.

How much solar power does Egypt have?

The biggest chunk of Egyptian solar capacity is provided by the Benban project, which lies 50 km from Aswan and is one of the world's biggest PV sites. Official figures on its capacity vary from 1.4 GW up to 1.8 GW, with the confusion apparently centering on the scope for expansion of some individual elements.

Will Egypt's PV market open up soon?

Voltaia expects the Egyptian PV market to open up very soon, however, because there was power rationing for two hours per day during the winter, due to a lack of natural gas feedstock for thermal power plants and a lack of foreign currency to buy gas, the Scatec representative said.

Under the scheme, a 550-watt solar system will be provided to 52,019 households who consume up to 100 units per month, while a 1,100-watt solar system will be allocated to those who consume up to 200 units per month, they said. Consumers can apply for the scheme through the online portal on the website or send their details through SMS to 8800.
