

What does the Guam Energy Office do?

The Guam Energy Office, as a line agency within the Executive Branch, implements energy programs for the benefit of the island community using grants awarded by the U.S. Department of Energy - the State Energy Program (SEP) and the Weatherization Assistance Program (WAP).

How is energy consumed in Guam?

In Guam, the consumption of energy is heavily influenced by its remote location. Almost all energy is reliant on imports of petroleum products for use in transport and electricity. Guam does not have any domestic production of conventional fuels such as oil, natural gas, or coal.

When will the Guam Energy Office reopen?

The Guam Energy Office will reopen for business starting Monday, June 1, 2020 from 8:00 am to 5:00 pm. Effective June 1, 2020, all GovGuam offices, agencies, and departments will recommence public operations. Continued compliance with Social Distancing rules will be strictly enforced, thus services will be limited to those with appointments only.

How much power does Guam generate?

Guam has a rated generating capacity of 560 MW, more than twice its historical highest load. This power is supplied by several plants burning residual fuel oil operated for the Guam Power Authority by independent power providers. In 2015, electricity in Guam cost 2.5 times as much as on the U.S. mainland.

How does Guam Power Authority manage performance?

Guam Power Authority management holds strongly to the tenet that if you do not measure performance, then you cannot manage performance. In order to better serve the public, the Authority maintains standards for performance. In addition, the PUC and GPA have agreed upon standards for prudent fuel use.

What is Guam Power Authority & Public Utilities Commission?

Guam Power Authority and the Guam Public Utilities Commission, as the result of a collaborative effort, have agreed on a set of standards, practices, procedures and methodologies to promote and provide incentives for prudent fuel use.
