

Energy storage pilot project kick-off meeting

EnerVenue, currently pioneering the commercial deployment of high-efficiency metal-hydrogen batteries capable of more than 30,000 cycles, has announced that RWE has purchased EnerVenue Energy Storage Vessels (ESVs) for performance testing in a renewable energy pilot project.

At the start everybody is still motivated and you want to use this energy to get the first work done. Just have one slide with maybe 4 or 5 bullet points indicating what the team is working on next. ... Prior to a kick-off, if the project has a time ...
