Key Capture Energy (KCE) announced in August that a search was on for a successor as Bishop looked to move on after seven-and-a-half years leading the company, with the present chief exec to stay on until an appointment was made.. The company yesterday (7 December) named Brian Hayes as the company's new leader. Hayes' most recent role is as ...

Equally, Energy Vault's system is around 50% cheaper than battery storage technology, in particular lithium-ion batteries, which can have an LCOS of around \$0.25/kWh-\$0.35/kWh. One of the reasons for this is the cost of battery materials, which is much higher than the cost of concrete provided to Energy Vault by Mexican company Cemex.

In late August, Stem Inc, a provider of energy storage systems and energy management solutions, received a written notice from the NYSE that the average price of its common stock had fallen below the US\$1.00 threshold required for continued listing. Gravity-based energy storage technology, battery storage and green hydrogen system integrator ...

Energy-Storage.news caught up with Energy Vault CEO Robert Piconi to primarily discuss its gravity-based energy storage solution which, putting it mildly, has its fair share of sceptics. The company, which listed on the NYSE early last year, is perhaps already one of the most recognisable names in the energy storage industry today.
