

Where is Ingrid capacity partnering with BW ESS?

Since 2023, Ingrid Capacity has partnered with BW ESS to develop 14 large-scale battery storage projects at strategically selected locations throughout Sweden's electricity grid, situated in the electricity price areas SE3 and SE4.

Who is BW ESS?

BW ESS is a part of BW Group, a global energy and maritime infrastructure company with a growing portfolio of clean energy investments, including batteries, solar, offshore wind and biogas. Ingrid Capacity and BW ESS are starting the construction of energy storages at eight locations in Sweden. An output of more than 200 MW is now in construction.

How many large-scale battery storage systems are there in Sweden?

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout Sweden's grid, situated in electricity price areas SE3 and SE4.

What will Ingrid capacity and BW ESS do in 2024?

During the coming nine months, Ingrid Capacity and BW ESS further plan to start construction of facilities with a capacity of another 300 MW. This means that before the end of 2024, the partnership will have 400 MW in operation, mainly in Sweden's electricity areas SE3 and SE4.

Where is BW ESS located?

The company was founded in 2022 and is currently active in Sweden, Finland, and Estonia. About BW ESS: BW ESS is a dedicated energy storage business with a globally diversified project portfolio comprising over 400 MWh under construction and over 1GW of ready to build projects.

Does Ingrid capacity help Sweden catch up with energy storage?

In several countries near Sweden, the expansion of energy storage has therefore already been underway for some time. Ingrid Capacity now ensures that Sweden catches up," says Karin Lindberg Salevid, Chief Operations Officer of Ingrid Capacity.
