

What is Europe - Sri Lanka capacity building in energy circular economy (EUSL-energy)?

The programme has been developed as a part of Europe - Sri Lanka Capacity Building in Energy Circular Economy ("EUSL-Energy") project involving four partner universities in Sri Lanka and in collaboration with three European HEIs (Royal Institute of Technology, Sweden; Centrale Supélec, France; and University of Twente, Netherlands).

What is Sri Lanka's team Europe initiative?

Sri Lanka's Team Europe Initiative, in collaboration with Germany, France, and the Netherlands, is committed to fostering a transition towards a more low-carbon, resource-efficient, and circular economy model. This initiative places a strong emphasis on biodiversity protection and the promotion of green, inclusive employment opportunities.

Could EV technology be a solution in Sri Lanka?

In Sri Lanka, such reform could include conversion of three-wheelers and buses to EV technology that can reduce the burden of foreign exchange payments for fossil fuel imports and an automatic fuel pricing system considering who should pay and who could pay.

Why is Sri Lanka a symptom of a global crisis?

Compounded by the COVID-19 pandemic and war in Ukraine, the crisis in Sri Lanka is a symptom of a bigger problem unfolding globally. The consequences of relying on finite fossil fuel tied to volatile markets to supply our energy and drive our economies should have hit home during the fuel, food and financial crisis of 2008.

What are Sri Lanka's priorities relating to the Global Gateway strategy?

Additionally, priorities linked to the Global Gateway Strategy are also being explored in the country. Sri Lanka's Team Europe Initiative, in collaboration with Germany, France, and the Netherlands, is committed to fostering a transition towards a more low-carbon, resource-efficient, and circular economy model.

Why do people wait in a petrol queue in Colombo?

When Sri Lanka's fuel crisis hit in June, waiting in a petrol queue for over 14 hours in Colombo gave time for some truths to sink in. One is that going to get that coffee to keep you awake would inevitably prompt the queue to move. Another is that when a crisis strikes, not everyone suffers equally.

The European Chamber of Commerce of Sri Lanka (ECCSL) was founded in 1996 and operates with a counsel of expertise, along with the chamber secretariat, to promote and strengthen ...

The main objective of this study is to assess the energy potential of rice industry by-products in Sri Lanka and to analyze the economic viability of these resources.

European Energy across the world. We have a high success rate in implementing sustainable energy projects
