

Does the Falklands need a new wind farm?

But the Falklands feel it is not enough and besides the current wind farm is reaching its renewal date. No wonder then that notice has been given of the planning applications submitted for the Farm Expansion of Sand Bay Wind Farm to include 3 by E70 Enercon wind energy converters and battery storage. FIG and c/o Glenn figure as the applicant.

How much oil does the Falkland Islands hold?

According to multiple UK media reports over the weekend, the vast and untapped basin holds at least 800 million barrels of oil. In late June, the Falkland Islands began a public consultation on the environmental impact of the Sea Lion Field Northern Development Area, located 220km to the north of the small island group.

Will the Falkland Islands approve a huge oilfield?

Credit: Nick Beer via Shutterstock. In what will be seen as a blow to the UK's movement away from fossil fuels under the new Labour Government, the Falkland Islands seems intent on approving the development of a huge oilfield in its territorial waters.

Is the Falkland Islands a 'devolved matter'?

A statement from the islands' government over the weekend again reiterated its independence from the UK, adding that the "development of the natural resources of the Falkland Islands is a devolved matter and is for the people of the Falkland Islands to decide".

Where can I find a plan for the Falkland Islands?

FIG and c/o Glenn figure as the applicant. The plans and details can be viewed at the Planning Office, Secretariat, Stanley and on the Falkland Islands Government Planning & Building Services Facebook page. Anyone wishing to comment on these applications must do so in writing, to the Planning Officer, by 2 February 2024.

Can the UK stop Falkland from exploiting oil and gas reserves?

The UK cannot stop the Falkland's authorities from exploiting oil and gas reserves as the islands lie outside of the jurisdiction of UK ministers and effectively govern themselves. As previously reported, the small territory has already rejected a request from the UK to ratify the Paris Agreement on climate change.

The wind power potential in the Falkland Islands is very good. In 2016 the islands generated 19 GWh of electricity. Of this 53 percent was generated by fossil fuels and the remaining 47 percent was generated by wind turbines. As of December 2021, one energy company on the Falkland Islands had already installed in excess of 100 wind turbines ...
