That said, the cheapest solar company isn't always the best solar company, which is why solar financing options are crucial. If you had a great experience with a solar company but can't afford to pay them \$35,000 for their system this year, see if they'll be willing to work on different financing options. Industry Affiliations

If your state isn't ranked highly on this map, it doesn't mean you shouldn't invest in solar. In fact, many of the lower-ranking states, like Arizona, Louisiana and Mississippi, have excellent conditions for solar. But they may not have solar-friendly incentives and policies in place to encourage homeowners to make the switch to clean energy.

3 · A Good Warranty: Florida's weather wreaks havoc on solar systems, so it's especially important to make sure your solar installer offers a solid warranty. The industry standard warranty covers equipment and performance for 25 years and workmanship for 10 years, and I recommend choosing an installer that offers at least that, but preferably more.

Historically, both electricity and gas markets in France were dominated by two formerly state-owned suppliers: EDF (Electricité de France) and Engie (formerly known as GDF, or Gaz de France). However, following pressure from the EU, France liberalized its energy market in 2007. This means consumers are now free to choose their energy provider.
