

Does Greenland have green energy?

Greenland's proportion of green energy varies from town to town to settlement. With an agreement on new hydroelectric plants in Qasigiannnguit and Aasiaat and the expansion of the existing one in Nuuk, green energy should spread across the Greenlandic geographical map.

Will green energy spread across Greenland?

With an agreement on new hydroelectric plants in Qasigiannnguit and Aasiaat and the expansion of the existing one in Nuuk, green energy should spread across the Greenlandic geographical map. The political course is set in Greenland, with less importing of oil from abroad and a much larger share of green energy in Greenland.

Does Greenland use biomass?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Greenland: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Is Greenland ready for future opportunities?

The journey is long and complex, but there is more momentum for change than ever, and that development makes sense. Looking at international investments in the energy sector, there is a greater focus on renewable energy, and Greenland is gearing up to be part of future opportunities.

Does Greenland have a political path?

The political course is set in Greenland, with less importing of oil from abroad and a much larger share of green energy in Greenland. The journey is long and complex, but there is more momentum for change than ever, and that development makes sense.

Does Greenland have a clock?

In Qaanaaq, Greenland, residents live between the gargantuan Greenland Ice Sheet and the frigid waters of Baffin Bay. (Bonnie Jo Mount/The Washington Post) QAANAAQ, Greenland -- Out on the ice, Toku Oshima often says, "there is no time." No calendar but the migrations of sea creatures. No clock but the cadence of the tides.
