

The SPC series Temperature/Humidity transmitter incorporates two sensors in one attractive wall mount enclosure for the most efficient environmental monitoring and control system. It uses a field-proven RH sensor to monitor relative humidity over 0-100% RH and a curve-matched thermistor to measure temperature over common field-selectable ranges.

May 22nd, 2024 Groundbreaking Ceremony: Greystone Energy Systems Inc. Building New Headquarters in Moncton, NB May 22, 2024, will mark the official start of construction on Greystone Energy Systems' new global headquarters, located in Moncton, New Brunswick Canada. With over 78,000 square feet of mixed office and manufacturing space, this new ...

News and Blog By greystone August 8, 2024 August 8th, 2024 Latour acquires QEL in Canada and expands further in North America Investment AB Latour (publ) has, through its wholly-owned subsidiary Bemsig AB, acquired 100 per cent of the shares ...

Product Description. The PMDT Duct Particulate Matter Sensor uses an optical sensor based on laser scattering principles and features innovative contamination resistance technology to perform highly accurate and reliable PM measurements.

October 8th, 2021 Greystone Energy Systems Inc - A Message to our Customers and Suppliers - Bemsig Acquisition Dear Valued Partner, It is my great pleasure to inform you that on September 29th, 2021, Greystone Energy Systems Inc. and our international subsidiaries were acquired by Bemsig. Bemsig is a wholly-owned subsidiary of Investment AB ...

Established in 1983, Greystone has over 30 years of experience designing, manufacturing and supplying HVAC sensors and transmitters for Building Automation Management Systems. Headquartered in Moncton, NB, our global family consists of over 120 employees, across 9 locations globally, including regional sales offices in Dubai, India, Singapore ...

Robin was appointed President and Chief Executive Officer of Greystone Energy Systems Inc. in July of 2015. Prior to joining GES, Robin held the position of Senior Vice President and Chief Operating Officer within various business units at GTECH in the gaming sector and spent 12 years with Alcatel in sales, marketing and business development.

Features. The HATXRC series is an attractive, low profile enclosure that incorporates a high accuracy platinum RTD and transmitter and provides a high accuracy analog signal with excellent long term stability, low hysteresis and fast response for measurement of room temperatures.

For over 30 years, Greystone Energy Systems has manufactured HVAC sensors and transmitters for building and energy management systems. Our expertise with sensory type devices and ...

Product Description. The all purpose single point temperature sensor utilizes a precision sensor encapsulated in a 6 mm (0.236") OD, 304 series stainless steel probe and is available in various lengths.

LP Series Features: Jumper selectable 2 wire current and 3 wire voltage outputs 24 Vac/dc power supply Six variable jumper selectable pressure ranges, W.C. Hinged Polycarbonate weatherproof enclosure

Ranges between 0.1"WC and 0.4"WC (25 Pa and 100 Pa) 2 selectable ranges per device Uni or Bi-directional ranges Selectable 4-20mA or 0-10Vdc output IP65 (NEMA 4X) Enclosure

4-Wire Photoelectric, integrated low-flow technology Low flow air velocity rating from 100 to 4000 FPM Plug-in sensor offers superb false alarm immunity and the latest sensor technology 24 VAC/DC or 120/240 VAC operation Two SPDT Form-C relay contacts Easy and quick mounting to round or rectangular ducts One easy-access Test/Reset button and improved LED status ...

Highly Stable RH sensor element Humidity range: 0-100% Accuracy available 2%, 3%, & 5% Field selectable outputs Compact Polycarbonate enclosure Optional precision temperature sensor UL Listed
