

When did the ukudu power plant lands on Guam?

The units landed on Guam in late May and testing began on July 11. Some units are down and going through maintenance, and some minor load shedding did take place in June, according to discussions Thursday. The Ukudu power plant was damaged by Typhoon Mawar last year, delaying its completion.

How do I contact Guam Power Authority?

Guam Power Authority reminds customers to be vigilant. If you're getting pressured, hang up and call us at (671) 647-5787/8/9 - this will ensure you're speaking to a real utility employee. Work closely with customers experiencing hardship paying monthly bills and on other issues about their service.

What is GPA doing with Guam ukudu power?

In November 2019 GPA entered into a contract with Guam Ukudu Power, LLC for the construction and operation of a 198 MW Combined Cycle Combustion Turbine Power Plant. This new power plant will allow for the retirement of its oldest plant, Cabras 1&2, and address its emission compliance issues.
