

Who owns CSI energy storage?

The project is held by a fund managed by Axiom (80%) and Recurrent Energy (20%). CSI Energy Storage operated as the turnkey system integrator of the project, delivering engineering, procurement, and construction (EPC) services. The EPC will continue to provide long-term operational support for the site.

Who is CSI solar?

CSI Solar Co.,Ltd. is committed to providing high quality solar photovoltaic modules,solar energy and battery storage solu- tions to customers. The company was recognized as the No. 1 module supplier for quality and performance/price ratio in the IHS Module Customer Insight Survey.

What is California's largest single-phase energy storage system?

California's 350 MW /1400 MWhenergy storage system was developed by Axiom Infrastructure and Canadian Solar. Axiom Infrastructure and Canadian Solar's subsidiaries of Recurrent Energy and CSI Energy Storage announced the two have installed and activated what they are calling the world's largest single-phase energy storage facility.

What is crimson storage?

Upon activation,Crimson Storage became the largest active single-phase storage project in the world,and second-largest energy storage project currently in operation of any configuration. The project holds two long-term contracts with utilities Southern California Edison and Pacific Gas and Electric.

When did Recurrent Energy start developing Crimson storage?

"Recurrent Energy began developing Crimson Storage and our larger energy storage pipeline in 2015when no large-scale storage projects yet existed. Last year,we started bringing these projects to fruition also thanks to our CSI Energy Storage team.
