

How to fill in the energy storage system inspection record form

What are the requirements for a reg system inspection?

Completeness of the documentation and its correspondence with the REG system on-site, as per SEC's inspection checklist. Inspect the presence of Interface Protection and required switches. Witness Compliance test to be performed if necessary, during cold commissioning. Temporary connection granted (known as "Limited Operational Notification").

What is the energy storage safety strategic plan?

Under the Energy Storage Safety Strategic Plan, developed with the support of the U.S. Department of Energy (DOE) Office of Electricity Delivery and Energy Reliability Energy Storage Program by Pacific Northwest Laboratory and Sandia National Laboratories, an Energy Storage Safety initiative has been underway since July 2015.

Can CSRS be applied to energy storage systems?

Until existing model codes and standards are updated or new ones are developed and then adopted, one seeking to deploy energy storage technologies or needing to verify the safety of an installation may be challenged in trying to apply currently implemented CSRs to an energy storage system (ESS).

What is a plan review/inspection checklist Task Force?

A Plan Review/Inspection Checklist Task Force composed of all stakeholders that are involved with the ESS safety initiative as described above was formed to foster the deployment of safe ESS, and through their efforts, this document was developed. The task force participants are listed below.

Does SEC have a right to witness a Reg energization & operation?

During REG Energization & Operation phase, SEC will have the right to witness the commissioning tests only if deemed necessary. SEC eventually will be responsible for issuing the "Final Operation Notification" and if deemed necessary, SEC is entitled to ask the Eligible Consumer to sign a REG System Operational Agreement.

How does SEC check the commissioning report?

SEC will also check the commissioning report following SEC's commissioning checklist. The documents listed hereinafter have to be considered a compendium of the current document. Therefore, they should be carefully read in addition to this.

replaces obsolete requirements. This form should be filled out by each Facility Security Officer (FSO) for each open storage area in their facility.
