

## How to store energy before going to bed with new equipment outdoors

How do you create heat if you sleep outside?

If you're sleeping outside, you've gotta create heat from the inside, and then trap it. One way your body creates heat is by metabolizing food. Foods high in fat take longer to metabolize, creating more heat. Hardcore alpinists are known to drink olive oil before bed, and many guides add butter to hot chocolate before going to bed.

How do we store energy in the 21st century?

Let's see how we store energy in the 21st century. It is much harder to store renewable energy than fossil fuels. Non-renewable energy only needs some 'space' to be stored, but green energy is stored in batteries, electric capacitors, magnetic storages- that have a lower efficiency. Read our article about storing solar power for decades.

How do you stay warm on a backcountry trip?

If you tend to have trouble sleeping warm on backcountry trips, are some tips to help you stay cozy at night: 1. Go to bed with a hot water bottle. A hot water bottle in your sleeping bag can stay warm for hours and help you sleep soundly when it's well below freezing in your tent.

How do you keep a sleeping bag warm?

Sleeping bags act as thermoses, not microwaves--they trap heat, but can't create it. If you enter your sleeping bag cold, you'll stay cold for a long time. So think of ways to get warm before you get into your bag. Drink or eat something warm. Snuggle by the fire. Or just do some jumping jacks before you hop into bed. 2. Put on some layers

Is sleeping outdoors a good idea?

Sleeping outdoors can impart several benefits, some of which may be intuitive while others might surprise you. For starters, getting away from artificial lights and environments can help your body reset your circadian rhythm. In fact, simply spending time outdoors can improve your mental health and quality of sleep.

How do you stay warm while sleeping?

Put on some layers A nice pair of socks, a warm hat, and long underwear can go a long way toward keeping you warm. Put on fresh clothes, and keep a pair of socks in the bottom of your sleeping bag that are exclusively for sleeping in.
