

Who is Hydrogenics Europe NV?

Hydrogenics Europe NV designs,manufacturers,builds,and installs industrial and commercial hydrogen systems. The Company offers hydrogen generators,fuel cells for electric vehicles,fuel cell installations for freestanding electrical power plants and UPS systems,and hydrogen storage and power systems for optimizing solar and wind systems.

Who is Hydrogenics Corporation?

With 60 years of hydrogen expertise and more than 1.700 references around the world,Hydrogenics Corporation is a leading global developer of clean hydrogen energy solutionsin the industrial,energy and renewable sectors.

What does Hydrogenics Europe do?

Hydrogenics Europe develops,produces and commercializes industrial pressurized electrolyzers. Besides the production of Hydrogen and Oxygen for a wide range of industrial applications and to be used as a fuel,electrolysis can be used to treat super-heavy water (Tritium Oxide).

When did Hydrogenics acquire EnKAT?

In 2002,Hydrogenics acquired EnKAT GmbH,which formed its Hydrogenics Europe division. It also acquired Greenlight Power Technologies,Inc.,a competing fuel cell testing business,in 2003.

What IEA HIA & ease is Hydrogenics a member of?

Hydrogenics is participating as an active member in the IEA HIA (International Energy Agency - Hydrogen Implementing Agreement) and the EASE (European Association for the Storage of Energy),being involved as expert for electrolyzer-to-renewable connections,energy storage and for remote community energy storage.

Stuart Energy Europe NV is also responsible to couple his systems to renewable energy system and has several other exciting technologies designed to facilitate the use of hydrogen as an alternative fuel for energy and transportation ... HYDROGENICS EUROPE. Type: Headquarters: Year established: 2000: Legal form: NV/SA/AG: Activity (BEL08)
