

Who owns Puerto Rico electricity?

(Transmissions Lines & Distribution Areas) by LUMA Energy. June 30, 2023 (Generation Area) by Genera PR. The Puerto Rico Electric Power Authority (PREPA; Spanish: AEE) is an electric power company owned by the Commonwealth of Puerto Rico responsible for electricity generation, power distribution, and power transmission on the island.

Does Puerto Rico have power?

BAYAMON, Puerto Rico (AP) -- A power company in Puerto Rico announced Thursday that it has restored electricity to most areas affected by a massive outage that hit the U.S. territory the previous day. The outage left over 340,000 customers in the capital, San Juan, and neighboring municipalities without power during a heat wave.

Why does Puerto Rico need electricity?

Every day we depend on electricity. We need it to run lights on the roads, produce goods and services, and keep the economy moving. Our job is to provide you with safe, strong, reliable electric service. The transformation of the electric grid, coupled with better services and rapid response, will allow us to live in a better Puerto Rico.

What happened to Puerto Rico's electricity?

Electricity has been restored to roughly 87 percent of all power customers, nearly three days after a circuit-breaker failure at a main power plant caused an islandwide outage. All Americans deserve access to reliable and affordable power. Puerto Ricans are no exception. In September 2017, Hurricanes Irma and Maria caused most of the transmission and distribution system in Puerto Rico to collapse, leading to one of the longest blackouts in U.S. history and leaving residents in some parts of the territory without electricity for almost a year.

The hurricane's impact prompted sharp scrutiny of the public utility in charge of the power grid -- the Puerto Rico Electric Power Authority (PREPA). Months before Maria, PREPA had declared ...
