

Mit unseren drei Hauptkomponenten, der INTILION Application Unit (IAU), der INTILION Battery Unit (IBU) und der INTILION Control Unit (ICU) - INTILION ABC - bieten wir eine hochintegrierte, flexible und zuverlässige Basis für Batteriespeichersysteme. Die Komponenten arbeiten nahtlos zusammen und gewährleisten eine reibungslose ...

The major Asian battery manufacturers also have production facilities in Europe and Germany, but only for the automotive industry and not yet for Electricity storage units. However, as part of our ESG strategy, we will ...

Storing battery storage safely and efficiently - The Paderborn-based energy storage provider INTILION is now storing its spare parts and battery storage racks centrally in Hartmann International's newly built European Battery Hub in Paderborn. ... INTILION AG is a provider of innovative, highly scalable, and integrable energy storage ...

INTILION, an energy storage provider based in Paderborn, has equipped DB Schenker, the transport and logistics division of Deutsche Bahn, with energy storage systems on behalf of the Wiesbaden-based company Ampermo. Together with other partners, Ampermo is constructing a comprehensive system consisting of an 835 kWp solar power plant and a high ...

INTILION integrates the battery storage systems into the customer's overall system via the intelligent energy management system and monitors the functionality of each module throughout the entire operating ...

Stabilizing power grids using INTILION's battery storage systems with backup-power capability. Safeguarding against regional blackouts. As power generation becomes increasingly volatile, there is a growing need for grid-forming or backup power-capable energy storage systems that can be used to protect against bottlenecks. Although a ...

INTILION's prototype safety technology shows gases being safely vented from the front side of the storage system, exhibited at Intersolar Munich 2022. ... The battery energy storage system (BESS) integrator revealed the plans this morning ... Austria and Switzerland though wants to expand to other major European markets.

All of the cells we use undergo repeated lab tests to guarantee long battery service lives and top product safety. See for yourself. Cloud services and data monitoring Via our cloud solution, we have full control of the system and an overview of all relevant system data at all times through our INTILION Dashboard. Learn More > ...

INTILION, an energy storage provider based in Paderborn, has equipped DB Schenker, the transport and

logistics division of Deutsche Bahn, with energy storage systems on behalf of the Wiesbaden-based company

...

Germany-based battery energy storage system (BESS) integrator Intilion is planning to go public with an IPO in the third quarter of the year. ... INTILION's prototype safety technology shows gases being safely vented from the front side of the storage system, exhibited at Intersolar Munich 2022. ... Austria and Switzerland) but wants to ...

Das System wird durch die BMS-Schnittstelle Intilion Battery Unit (IBU) und die Systemschnittstelle Intilion Control Unit (ICU) komplettiert. Die IAU bietet vier Kernfunktionalit&#228;ten: Schnittstellenmanagement, Applikationen, Funktionen zur Sicherstellung der Netzkonformit&#228;t und weitere Systemfunktionen.

Intilion revealed its plans to list shares on the Frankfurt Stock Exchange today (27 June). The initial public offering (IPO) will also include private placements outside of Germany of new shares from a capital increase, and will ...

Die INTILION geh&#246;rt zu 100% der HOPPECKE Unternehmens&#173;gruppe an. Wir sind Ihr Partner und Experte f&#252;r Lithium-Ionen Energie&#173;speicherl&#246;sungen. ... Mit Gr&#252;ndung der HOPPECKE Advanced Battery Technology am Standort in Zwickau legt die HOPPECKE Gruppe den Grundstein zum Aufbau der Lithium-Ionen-Batterie Entwicklung.

All-in-one, turnkey battery storage solution including inverter; Weather-resistant thanks to outdoor casing; Intelligent system management for optimal and safe operation

I hereby consent, until revoked, to INTILION Aktiengesellschaft, Wollmarktstra&#223;e 115c, DE-33098 Paderborn, Germany, processing my personal data listed above for the purpose of responding to project and/or product enquiries by sending information material and/or arranging a consultation appointment and for forwarding to the "preferred dealers" selected by me above.

Effizientes Zusammenspiel - INTILION | ABC. Mit unseren drei Hauptkomponenten, der INTILION Application Unit (IAU), der INTILION Battery Unit (IBU) und der INTILION Control Unit (ICU) - INTILION ABC - bieten wir eine hochintegrierte, flexible und zuverl&#228;ssige Basis f&#252;r Batteriespeichersysteme. Die Komponenten arbeiten nahtlos zusammen ...

The Paderborn-based energy storage provider INTILION is now storing its spare parts and battery storage racks centrally in Hartmann International's newly built European Battery Hub in Paderborn. Thanks to its location in the centre of Germany, the site guarantees connections to all major transport hubs and ports as well as to the battery ...

INTILION successfully launched the indoor commercial storage system scalestac in Germany, Austria and Switzerland in June 2021. The flexible system for public utilities, municipalities, industrial companies,

businesses and farmers can be expanded from 25 kVA to 400 kVA and is available with a capacity from 123 kWh up to 1 MWh.

INTILION | scalecube Safe and individual in perfection An overview of all highlights Modular and flexibly expandable battery storage system at the ... 10 years or 4000 cycles on the battery Norms & Standards EU Directives: 2014/53/EU (RED), 2014/30/EU (EMC), 2014/35/EU (LVD)

German energy storage company Intilion AG said it has been hired by a unit of Deutsche Telekom AG (ETR:DTE) to realise a 60-MWh project under its largest order to date.

Alina M&#246;bius (left) is Junior Product Manager at Intilion. Martin Peters (centre) is Product Manager and Andr&#233; Haubrock (right) is CEO of the Paderborn-based storage manufacturer. ... Italy and the DACH region, i.e. Germany, Austria and Switzerland, currently account for 80 per cent of the market. However, we are also seeing increasing growth ...

The INTILION | scalestac battery system is connected to two existing PV systems with a total. [Learn More >](#) Energy storage provider INTILION postpones planned IPO Paderborn, 10 July 2023 - The energy storage provider INTILION Aktiengesellschaft ("INTILION" or the "Company") has decided together with its sole shareholder HOPPECKE Rail ...

As a qualified partner of Enel's subsidiaries Enel X and Enel Green Power, Intilion will supply its storage systems for commercial and industrial projects with up to ten ...

Battery storage system safety was at the top of the agenda for many vendors and their customers at ees Europe last week. Skip to content. Solar Media. ... INTILION, a battery storage manufacturer headquartered in Germany, was unveiling a new prototype BESS for the commercial and industrial (C& I) market, with an inbuilt fire safety feature. ...

Battery storage system in industrial environment stabilises grid of the future. Paderborn, 19 December 2023. The team running the INZELL research project (network support and system service delivery through an industrial cell with stand-alone grid compatibility and renewable energies) has set up a temporary outdoor power lab on the campus at OTH ...

INTILION gives you the complete fulfillment service package: from initial advisory, customized project management and installation, through to end of life. We guide you through the entire process and provide help and advice together with our powerful network of partners. ... Design of the battery system including inverters, transformers and ...

and dismantling of the battery storage unit. This applies in particular to the safety instructions listed. After reading the operating instructions, you can do the following: - put the battery storage into operation - operate the battery storage system in accordance with safety requirements - maintain the battery storage as instructed

INTILION AG, a company of the HOPPECKE Group, offers the ideal lithium-ESS energy storage solutions to meet your challenges. It is specialised in the supply and installation of lithium-ion ...

Our three main components, the INTILION Application Unit (IAU), the INTILION Battery Unit (IBU) and the INTILION Control Unit (ICU) - INTILION ABC - provide a highly integrated, flexible and reliable basis for battery storage systems. This ensure smooth integration and efficient control of the overall system.

In addition, we have developed an innovative fire protection enclosure for the battery modules as part of a comprehensive protection concept. With its fully mechanical construction, the fire protection system by INTILION reliably and securely meets all fire protection requirements according to VDE-AR-E 2510-50.

More >

INTILION provides innovative, highly scalable and integrable energy storage solutions with a comprehensive range of services, primarily for use in commercial, industrial and grid applications.

Our three main components, the INTILION Application Unit (IAU), the INTILION Battery Unit (IBU) and the INTILION Control Unit (ICU) - INTILION ABC - provide a highly integrated, flexible and reliable basis for battery storage systems. The components work together seamlessly and ensure smooth integration and efficient control of the overall ...
