Our generators are perfect for synchronising, standby or prime use, with a massive range from 6kVA to 2200kVA coming equipped with Perkins, Cummins, Doosan, Iveco, MTU, Volvo, Deutz or Hyundai engines, as well as Deep Sea and Comap generator controllers.

An inverter generator can be a great solution if you want to use your generator for home backup purposes. Inverter generators provide a reliable, clean source of energy, are quieter than traditional models, and are much more fuel-efficient.

Kohler home generators: Automatic backup power restoration before, during and after the storm. 2,000 Hour / 5-Year Warranty. Powerful, quiet, customizable.

Fuel is stored in an underground tank or supplied by your home's natural gas. Standby generators are larger than portable generators (7,500 watts to 48,000 watts or more), and they're more expensive, running anywhere from \$5,000 to more than \$25,000. Standby generators need to be professionally installed by a licensed electrician.

Whole house or home backup generators start at ~\$3,000 for a 10kW model and go up to around \$30,000 for a 150kW model. Most residential homes will need a 10-20kW generator. A popular 16,000 or 16kW whole house generator from Generac will put you back about \$4,200 (plus installation, which will cost several thousand dollars at a minimum). ...
