

Are battery energy storage systems needed in Italy?

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale solar plants, having a capacity of less than 20 kWh.

Does Italy need electricity storage?

As Italy's energy mix is increasingly composed of variable renewable energy sources, electricity storage will be needed to integrate power generated by renewables into the national grid and make it available when sun and wind energy are not accessible.

Which energy projects won 174mw of new contracts in Italy?

Meanwhile, Italian transmission system operator (TSO) Terna published the result of its capacity market recently, which saw 174MW of new contracts awarded to energy projects. Three BESS projects won a little over half of that capacity, at 89MW in total, while thermal generation units won 85MW of new capacity.

Why is energy storage important in Italy?

In addition, electricity storage is critical to avoid congestion in the power grids since most of the renewable production originates in Southern Italy but is consumed mostly in the north. Therefore, PNIEC also provides for the installation of new energy storage infrastructure with the aim of reaching 22.5 GW of installed storage capacity by 2030.

Which European markets have the most battery storage installations in 2023?

Top 3 European Markets for Battery Storage Installations in 2023 Germany, the U.K., and Italy emerged as the leading markets for battery storage installations in Europe during 2023. According to TrendForce statistics, Germany, the U.K., and Italy added capacities of 6.1GWh, 4.0GWh, and 3.9GWh, respectively, to their energy storage infrastructure.

How much will Italy's energy storage program cost in 2023?

In December 2023, the EU greenlit Italy's energy storage program, earmarking a hefty investment of EUR17.7 billion. This initiative is anticipated to facilitate the construction of over 9GW/71GWh of energy storage systems (ESS).

Energy Dome's Ben Potter is speaking with Energy-Storage.news at the Energy Storage Summit EU about the Italy-headquartered startup's business models. Our in-person interview comes exactly a year after the ...

The capacity market (CM) and a new energy storage-only auction scheme called MACSE are expected to form the foundation of the business case for grid-scale storage in ...

Gore Street Energy Storage Fund has acquired a 200MW battery storage project in development by Kona

Energy. It marks the stock exchange-listed energy storage investment fund's single largest project acquisition to ...

The residential energy storage market in Italy is already very strong, with the second-highest (321MWh) deployments in 2022 after Germany according to figures from trade body SolarPower Europe. This is partially ...

Energy-Storage.news reported on Volvo Cars" (now listed independently on the Stockholm Nasdaq) own foray into the vehicle-to-grid (V2G) space last week. bankruptcy, battery packs, electric vehicles, electric buses, ...

BESS technology has won the bulk of new resource contracts in the capacity market (CM) auction for delivery in 2027 in Italy. The auction took place last week (26/27 ...

Italian Energy Storage. In order to meet the European Union's energy and climate greenhouse gas emissions targets by 2030, EU countries need to establish a 10-year integrated national energy and climate plan to cover the period between 2021 and 2030. ... Energy used in aircraft, ships, motor vehicles, provided it is produced on board with its ...

The energy storage market in Italy has unique characteristics that mean more risk-averse investment funds will be able to enter, but upcoming auctions could be very competitive, driving down clearing prices, a director at consultancy Timera Energy said. New German BESS revenue indexes shed light on market and trading strategies ...

Axpo has already deployed a small battery storage project on home turf, this 2MW/2.17MWh unit at the Jona-Rapperswil power station. Image: Axpo Holding. Switzerland's largest energy firm Axpo has entered the battery ...

Partnering with such an experienced investor like CIP allows us to deliver projects that sets new standards for energy storage in Italy," Castiglioni said. Earlier this month, CIP ...

GRS, a part of Gransolar Group, has been contracted by Recurrent Energy to build a 171MW solar-plus-storage site in Victoria, Australia. Adapture Renewables secures US\$321 million debt facility ...

The firm agreed a deal with InfraRed Capital Partners to acquire Statera Energy earlier this month (6 November). Statera, a UK-based battery energy storage and flexible energy generation developer and operator, will ...

See all Energy-Storage.news coverage of the market in Italy here. Energy-Storage.news" publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 21-22 February 2024. This year it is moving to ...

Rome - July 4, 2023 - Matrix Renewables ("Matrix"), the TPG Rise-backed global renewable energy platform, today announced that it has started a partnership with Gravel A through a proprietary Development Service Agreement (DSA) for the development of up to 1.5 GW of standalone Battery Energy Storage Systems (BESS) in Italy. The first stage of this partnership ...

The 680MW Carrington Storage proposal is Statera Energy's largest consented BESS project to date. Image: Statera Energy. IPP Statera Energy and developer Carlton Power have entered an agreement allowing Statera Energy to build a 680MW battery energy storage system (BESS).

Developer Emeren has sold two more Italy BESS projects to Matrix Renewables totalling 293MW, bringing the total projects developed and transferred to 1GW.

On behalf of the Organizing Committee, we are pleased to invite you to participate in the conference of the 7th International Conference on Energy Storage and Intelligent Vehicles (ICEIV2024), which will be held in Rome, ...

Energy-Storage.news" publisher Solar Media will host the 2nd Energy Storage Summit Central Eastern Europe on 24-25 September this year in Warsaw, Poland. This event will bring together the region's leading investors, ...

A trio of European BESS announcements, with Merus Power securing an order in Finland and IPPs Metlen and Aquila Clean Energy EMEA winning government financial support for projects in Italy and Portugal respectively. The new items came in the same week that our publisher Solar Media put on the Energy Storage Summit EU 2025 in London (17-19 ...

G& W Electric Co., a global supplier of electric power equipment since 1905, announced today it has acquired Tozzi Electrical Equipment, headquartered in Foggia, Italy. Tozzi is a manufacturer of electrical equipment, electrical panels and prefabricated mobile cabins for low and medium voltage.

The CM and a new energy storage-only auction scheme called MACSE are set to form the bedrock of the business case for grid-scale storage in Italy, something that consultancy Timera Energy's director for power market services Steven Coppack said made it unique in Europe (Premium access). Specifically, the long-term contracted revenue of both ...

Storing renewable energy for Italy's biggest data ... FIAMM (a Hitachi group company) and Aruba have created a novel solution to power Italy's largest data centre using only renewable energy, enabling the local ...

Policy changes in Italy are expected to have a significant impact on the European energy storage market, potentially leading to changes in local energy storage installations in 2024. Firstly, the decline in subsidies under the ...

The panel discussion on Day 1 of the Energy Storage Summit EU in London last week. Image: Solar Media. Italy's grid-scale energy storage market opportunities are unlike anywhere else, but many challenges and uncertainties ...

The second edition of RENMAD Storage Italia (April 2-3, 2025) will bring together leading experts and industry leaders to discuss the evolving energy storage landscape, exploring both the opportunities and challenges ahead. Be part of ...

On Monday, Aquila Clean Energy EMEA started building a 50MW BESS, while fellow developer MW Storage announced two new energy storage projects totalling 40MW, covered by Energy-Storage.news. In August, another ...

Energy major Shell has acquired 100% of PV project developer Solar-Konzept Italia (SKI), taking its solar development pipeline in Italy to around 2GW in the process.

The development of large-scale battery projects aligns with CIP's growing focus on energy storage. With Italy's supportive regulatory environment, the partnership aims to ...

Kyon Energy's managing director Florian Antwerpen shared his views for a recent Year in Review article along with fellow European developer/operators Aquila Clean Energy EMEA and Baywa r.e. Energy ...

The firm has been an early mover in Italy's grid-scale energy storage market with over 1GW of BESS under construction after big capacity market wins in 2022. In concurrent news, developer Emeren has continued its ...

Rome - July 4, 2023 - Matrix Renewables ("Matrix"), the TPG Rise-backed global renewable energy platform, today announced that it has started a partnership with Gravel A through a ...

Italian utility Enel yesterday said it has acquired Liberty Lake, Wash.-based energy storage software firm Demand Energy. "By combining our global presence and expertise in systems integration with Demand Energy's software and established product offering, we will expand the development of renewables and storage both in the US and globally, delivering a ...
