

Why is GreenGo a leader in Energy Innovation in Italy?

This new operation strengthens GreenGo's position as a leader in energy innovation in Italy. It underlines the company's commitment to environmental sustainability, contributing to a sustainable energy future for Italy and the southern European context.

Who is GreenGo energy Germany?

GreenGo Energy Germany GmbH, the German arm of the Danish GreenGo Energy Group, has expanded its management team with the addition of two experienced professionals. Claas Oltmann and Dr. Philipp Schmagold, both with extensive backgrounds in renewable energy, join the company to lead efforts to develop large-scale, subsidy-free energy parks.

Is GreenGo a leading player in the energy storage sector?

GreenGo thus proposes itself as a leading player in the energy storage sector, extending its BESS portfolio to about 400 MW, of which 250 MW is in the advanced authorisation phase.

Which projects are part of GreenGo energy's megaton project?

The projects are Stovstrup, Hemmet-Sønder Vium, Rønde-Hjortmose and Vennervej, which are all part of GreenGo Energy's Megaton project. We are thrilled to announce our expansion into France, a significant milestone in our mission to drive forward the global energy transition.

How much green energy will Copenhagen generate?

Once operational, the park will have an annual production of 75.5 GWh, which is equivalent to green electricity for +18,800 Danish households. It will also help save about 8,800 tons of CO<sub>2</sub> annually from the Danish energy production.
