Ivory Coast officially opened a 37.5 megawatt (MW) solar power plant on Wednesday in what the government said was the first step of a plan to integrate more renewable energy into the power sector.

Cote d'Ivoire: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. ... Having clean fuels and technologies for cooking - meaning non-solid fuels such as natural gas, ethanol or even electric technologies - makes these processes more ...

This report is based on the findings of an energy assessment mission which visited the Ivory Coast in January 1984. The mission members were: Abderrezzak Ferroukhi (Mission Leader, Senior Energy Planner), Lori A. Perine (Researcher), Chakib Khelil (Petroleum Engineer), Yves Albouy (Power Economist), Daniel Dufrenoy (Power Engineer, Consultant),

The concession agreement was signed by Mamadou Sangafowa-Coulibaly, Minister of Mines, Petroleum and Energy of the Ivory Coast and Hussain Al Nowais, Chairman of AMEA Power. The project will be the first solar Independent Power Project (IPP) in Ivory Coast and will be located at the city of Bondoukou in the north-eastern region of Gontougo ...

Originally, Portuguese merchant-explorers in the 15th and 16th centuries divided the west coast of Africa, very roughly, into four "coasts" reflecting resources available from each coast. The coast which they named the Costa do Marfim--meaning "Coast of Ivory", and translated into French as Côte d'Ivoire--lay between what was known as the Guinée de Cabo Verde, so-called "Upper
