As the global shift toward renewable energy accelerates, Jamaica faces a critical decision about its energy future. Kenton Palmer's insightful article, supported by Allan Searchwell's comments, highlights a promising pathway for the nation: a government-owned electricity grid powered by renewable energy mini-grids.

Touted as a source of clean and sustainable energy, Holness said Jamaica's interest lies in small modular reactors. Not new to Jamaica. Small modular reactors (SMRs) are said to be advanced nuclear reactors with a power capacity of up to 300 megawatts of electricity per unit, which is about one-third of the generating capacity of traditional ...
