

What is lundsby renewable solutions?

Lundsby Renewable Solutions is more than just a name. It is our promise that - together with you - we will make both ends of green transition meet and contribute to a future, where more will live in a greener way on our blue planet. A future, where we turn natural resources into sustainable energy. And this future...is right now!

Why did lundsby renewable solutions change its name?

In 2022, the name changed into Lundsby Renewable Solutions, one of the reasons being the intention of exploiting the company's international potential to the maximum. Lundsby has more than 25 years of experience with designing and building turnkey biogas plants.

Does lundsby provide a biogas plant?

Lundsby always delivers a thoroughly tested and commissioned biogas plant, as well as the associated proper training of the operating staff. We offer ongoing support, until the operating manager feels confident regarding both the technical and biological part of the biogas plant.

When will lundsby renewable solutions participate in the Nordic biogas Conference (NBC)?

Lundsby Renewable Solutions will be participating in the ninth Nordic Biogas Conference (NBC) on October 22nd-23rd, 2024, in Aalborg, Denmark, organised by Biogas Danmark, Avfall Sverige, Biogass Norge, Energigas Sverige, Finnish Biocycle and Biogas Association and SORPA bs. from Iceland.

Why should you choose lundsby?

Lundsby provides a reliable plant and also helps you to commission the plant well and safely. The good cooperation with our customers and partners ensures that we keep our know-how updated, so we can always develop and optimise our solutions. To your benefit and to the benefit of your economy and the green transition.

How can lundsby help you in the green transition?

If you wish to play an active role in the green transition by using biomass from agriculture, households, industry, etc., we help you make all ends meet and turn the idea into reality. Lundsby has more than 25 years of experience with developing and providing efficient biogas plants.
