

Why did quartux & Sungrow complete a 25mwh project in Mexico?

Developer Quartux and global PV inverter and energy storage technology firm Sungrow have completed a 25MWh project in Mexico, one of the largest in the country. The companies announced the commissioning of the project in Cancun yesterday (2 August) to help the touristic town deal with increasing blackouts due to an unstable electricity grid.

Which countries will participate in the Energy Storage Summit Latin America?

In June, Spain-based power conversion specialist Ingeteam revealed it provided equipment for the first phase of the project. Returning for the second edition in Santiago, Chile, the Energy Storage Summit Latin America will explore opportunities in countries such as Chile, Peru, Colombia, Argentina, Brazil and Mexico.

Why is Sungrow launching a PowerTitan project in Cancun?

The companies announced the commissioning of the project in Cancun yesterday (2 August) to help the touristic town deal with increasing blackouts due to an unstable electricity grid. The project, which came online earlier this year, utilises Sungrow's containerised lithium-ion grid-scale energy storage system (ESS) product PowerTitan.

A joint Spanish bid has won a contract to construct a 35 MW cogeneration plant in the northeastern state of Tamaulipas in Mexico. Pemex Refinacion awarded the contract to OHL and Sener and they will provide the equipment at the plant, which will have a station for handling natural gas and a cooling system for treated water, as well as a transmission line connecting it ...
