

Will Pohnpei get a 5 MW solar power farm?

PEPP's proposed \$20 million 5 MW solar power farm for Pohnpeiwould help to establish the Federated States of Micronesia as a world trendsetter in the application of renewable energy. It would give the FSM greater energy independence.

How much does a solar project cost in Pohnpei?

After just 15 years,the entire project,capitalized at over \$20 million,will transfer,without cost,to the State of Pohnpei,providing it with many more years of free renewable energy using the best solar technology. The solar project in Pohnpei is a concept that can be replicated by other Small Island Developing States.

What are the guiding principles for energy development in Micronesia?

In addition, the policy establishes the following guiding principles for energy development in the Federated States of Micronesia: (1) the spread of benefits to disadvantaged communities, (2) increased public awareness and local capacity, (3) private sector involvement, and (4) community solutions.

Does Micronesia have a state-owned utility company?

state-owned electric utility company. Because the Federated States of Micronesia is so geographically dispersed,three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authorityis the only utility that serves a single island.

How does the geography of Micronesia affect electricity?

The single island of Kosrae has an electrification rate of 98%,while Chuuk,spread across seven major island groups,achieves a rate of 26%.5 Aside from limiting access to electricity,the geography of the Federated States of Micronesia has several other adverse effects on utility operations.

What is the Federated States of Micronesia (FSM)?

The Federated States of Micronesia (FSM) consists of the Government of FSM (GoFSM) and the four states of Chuuk,Kosrae,Pohnpei,and Yap.
