

What RS485 cable do I need for a JK inverter BMS?

This guide is for the newer JK inverter BMS, also known as the JK PB BMS range. See our original JK BMS guide if you have their older original BMS. Use a Seplos RS485 BMS cable. If you are creating your own cable, note that RS485B on pin 1 and RS485A on pin 2.

How reliable is solar assistant?

Solar assistant has nothing to do with that by the way. It only reports what it's being told by your inverter and your battery. A bit disappointed with what it shows. The Daly showed highest and lowest cell voltage. The JK's state of charge is wrong. SOC indicator of BMSs are notoriously unreliable.

What's the difference between solar assistant and inverter monitoring?

Everything is monitored in solar assistant. The monitoring there is much more robust and complete than the monitoring in the inverter. Plus, I can't see the inverter data from everywhere. Actually, they do communicate through the magic of physics. About to pull my hair out and atomize the SA. I've rebooted and still can't see the two JKs.

I have a JK\_PB1A16S15P and want to monitor cell voltages and other parameters in Grafana. I have bought a Raspberry pi 4B for this purpose and installed Grafana and Prometheus on it. I know there are several projects on GitHub using Python to communicate with the JK but with older models. I...

The JK Inverter BMS manual has the CAN and RS485 ports mislabeled. I set the BMS CAN setting to Pylontech and set the 6000XP in li-ion mode with pylontech "2" as the make/model then plugged into the 2nd port to the right of the brown "relay connector" on the BMS communications board. View attachment 202307

How to connect a JBD or Overkill Solar BMS to SolarAssistant. ... Configuration CAN bus CFE battery Daly BMS Dyness / Mecer EG4 Felicity Solar Giter JK BMS JK inverter BMS JBD / Overkill BMS Revov Seplos BMS Shoto BMS SOK SolarMD SunSynk Trophy Vestwood. Grid. ... Home Assistant. Setup Broker setup Energy dashboard Adjusting solar settings ...

The new JK PM BMS is not yet supported by these solutions, my JK PB BMS is on 15.17 and I connect to it via Wifi using a HiFlying EW11 with a Virtual Serial port on the PC so I can connect and monitor the batteries anywhere on the local Lan. Once one of your solutions adds the JK PB BMS I will try them out.

Solar assistant will see multiple JK's at a time. You can use the Smart shunt as a stand alone to verify/confirm the bms/Solar assistant data. JK's can be dialed in for very accurate SOC. As far as I know bms brand mixes or bms plus shunts won't work together with Solar Assistant.

Don't think jk bms support pylontech. Solar Assistant will have to do. It does provide battery info but not accurate of course. B. birc New Member. Joined Feb 8, 2023 Messages 1 Location KATOWICE. Feb 22, 2023 #136 Hi i just finish setup my connection with inverter must pv1800 and bms jk 8s

JK bms melted balance leads. Thread starter Alex1; Start date Sep 29, 2024; 1; 2; 3; Next. 1 of 3 Go to page. Go. Next Last. A. Alex1 New Member. ... orange pi with solar assistant also doesnt work. R. rogerheflin Solar Enthusiast. Joined Jul 15, 2024 Messages 402 Location Linwood, KS.

Hallo, gibts hier jemand der das JK mit der Solar assistant Software auslie&#223;t? Suche einen geeigneten Adapter JK zu Usb, m&#252;sste ein TTL zu USB sein, kenne mich aber nicht gut genug aus. Auf der Homepage von SA werden verschiedene Adapter vorgeschlagen, "JK BMS RS485 module" und zus&#228;tzlich "USB RS485" oder alles mit nur einem Adapter "USB TTL ...

It's less accurate than a Victron BMS but much more accurate than the standard voltage based readings of an inverter. USB Daly UART/RS485: Daly BMS UART/RS485 Deligreen BMS UART/RS458 Heyo BMS UART/RS458: USB JBD UART/RS485: JBD BMS UART/RS485 Overkill Solar BMS UART/RS485 QUCC BMS UART/RS485: USB JK RS485: JK BMS RS485

If you want to integrate JK-BMS to HA, there is already a fully working solution developed by Sebastian Muszynski. This is an ESPHome component so you just need to ...

Can Solar Assistant with a Pi work with the JK BMS's RS485 protocol? Looking for a way to remotely monitor my battery that has a JK BMS attached.

current setup- CAN bus from SOK server rack to SOL-ark-15k. RS485 from SOL-ARK-15k to Solar-assistant. The solar-assistant picks up on basic battery information from the BMS- voltage, temp etc. can people share their setups where they get the pack level information from the BMS straight to...

Connecting a JBD or Overkill Solar BMS Protocol selection. On the SolarAssistant configuration page, select the protocol below. You can select more than one JBD USB adapter: Connections and components. You need a JBD ...

I have a Growatt SPF5k inverter with two Lifepo4 batteries, each controlled by it's own BMS (JK 100A). I there a way to connect both BMS's to Solar Assistant? Currently it's ...

Connecting the JK inverter BMS Overview. This guide is for the newer JK inverter BMS, also known as the JK PB BMS range. See our original JK BMS guide if you have their older original BMS. Battery communication cable. Use a Seplos ...

Monitor JK BMS with Solar Assistant? @Nami It would be really good if you guys could provide a simple TTL/USB converter with the right connector for the BMS, so one can skip the RS-485 conversion. Or even just a connector with wires so one can attach a third party TTL/USB converter.

Typically the right two RJ45 jacks are used for battery to battery communications. The middle RJ12 jack is for Computer (or Solar Assistant) communications and the left RJ45 jacks (RS485 and CAN) are used for Master BMS to Inverter communications. The JK BMS manual counts pins on the double RJ45 jacks from left to right as pin 1 though pin 16.

The connection is indeed jk to rs485 in solar assistant but wiring is direct cable usb to ttl directly into bms. Info is accurate only unfortunately is very poor. Attachments

I thought I would share my Home Assistant dashboard that I'm using on a cheap Samsung A7 pad. I am using it for smart home applications, but also monitoring my: - ...

I do (I don't have JK BMS though). I have it connected using the Victron cable to my Solar Assistant Raspberry Pi. It works and was easy to set up but there are some issues with the data in SA. The battery dashboard shows the data from the Victron Smart Shunt correctly but not all the data is making it to the charts tab, e.g.

I am trying with USB to TTL (FT232BL chip) and B2A8S20P-HC model. I can successfully send the TX data through python script (similar to grafana). But, nothing/ blank in return. anyone successfully read the BMS through FT chip?. Using CAN/ RS485 port and RS485 enabled in app Rx->Tx and Tx->Rx...

Add-on for Home Assistant to connect JK, JBD, Daly, ANT, SOK and Supervolt BMS via Bluetooth - fl4p/batmon-ha. ... Add-on for Home Assistant to connect JK, JBD, Daly, ANT, SOK and Supervolt BMS via Bluetooth - fl4p/batmon-ha ... There is a few settings but as you can see from "the solar garage" video it is not as accurate as you would hope.

JK BMS - a month ago I would have said this is the clear choice. However the recent posts about the lack of support, SOC problems, etc make me not want to get it. ... Mine just works and I can monitor 15 if networked together using Solar Assistant. Danke Solar Wizard. Joined Apr 5, 2022 Messages 2,929 Location 36N 93W. Oct 23, 2024

The newer version of the JK-BMS will talk to inverters, and there's a project to allow the JK-BMS to talk to

the inverter. It would mean my JK BMS could talk to my Deye inverter. Sure it's cool, I get it. Maybe you can implement some cool charging strategies, etc., but beyond things like that...

Hi everybody im thinking about making a new battery pack of 72v 100ah I heard that Jk Bms are better than Daly but between JK bms with Bluetooth or Jia... Forums. New posts Registered members Current visitors Search forums Members. What's new. ... Solar Enthusiast. Joined Jan 2, 2021 Messages 585. Oct 2, 2023 #2 I have both BMS"s.

I have a JK-B2A20S20P BMS in my battery room but I want to extend the Bluetooth signal. Is there a way to do this? ... Solar Enthusiast. Joined Apr 26, 2022 Messages 566. ... Make sure you get one natively supported in home assistant. The esp32 talks to the BMS with bluetooth and relays that information to home assistant via wired or wireless ...

I have to correct this. There is no RS485 inside the BMS. It's a TTL signal coming from the one of the micro controller UARTs. RS485 uses three pins:A, B and GND.

if u have a device to take data from jk to Solar assistant conected on jk bms u can connect this on BT. the mqtt service will be available so u can send data interface directly. u can make the small interface only with can port. What is ur inverter? W. wongyan19 New Member. Joined Jun 2, 2021
