How much gas does Morocco need?

Morocco imports most of its gas needs, estimated at 1 billion cubic meters (bcm) currently, enough to power two small stations in its northwest and northeast. Its gas needs are expected to grow to 8 bcm as the country seeks to reduce its carbon footprint, according to energy ministry estimates. [Sign up here.](#)

How many cubic meters a year will Morocco's gas field produce?

The field is expected to start production at 100 million cubic meters annually starting next year, Managem said in a statement. Managem plans to further increase production there to 280 million cubic meters, when the field will be connected to an existing gas pipeline that connects Morocco to Spain, Managem added.
