

Why should you install solar panels in Belgium?

With enough solar panels, you will be significantly less dependent on your energy provider and are able to use completely green electricity. Solar panels can also help you with lowering your energy bills. There are two different types of solar panels in Belgium you can install: What Are Solar Thermal Panels?

Where can I install solar panels in Belgium?

For the installation of solar panels on the ground, on a protected building or in other regulated cases, you will have to contact your municipality. There are several companies active in Belgium that install solar panels.
