

North Korea engenio external storage systems

Last week's acquisition of Engenio, LSI's external storage unit, by NetApp caught a lot of people by surprise. While NetApp's desire to continue to grow through acquisition was no great secret, its decision to grow by acquiring Engenio did not on the surface initially make a lot of sense to me. After all, why would NetApp, who consistently pokes EMC in the eye for having ...

NetApp has agreed to acquire the Engenio external storage systems business of LSI for US\$480 million in cash, aiming to serve new applications with growing demands for storage and to get into ...

, LSI Corporation announced its sale of its Engenio external storage systems business to NetApp for \$480 million in cash. [1] The sale of the Engenio division, which generated revenues of \$705 million in 2010, completed in May.

The business and technology that LSI is selling to NetApp (aka Engenio) is the external storage system business that accounted for about \$705M of their approximate \$900M+ storage business in 2010. This piece of the business represents external (outside of the server) shared RAID storage systems that support Serial Attached SCSI (SAS), ...

LSI Corporation introduced the LSI Engenio 4900 storage system, a next-generation midrange disk storage system designed to deliver optimized performance, dynamic flexibility and advanced functionality at an affordable price.
