

Overseas agent for croatia independent energy storage project

How much ie-energy aid will Croatia get?

The European Commission has approved EUR19.8 million(US\$20.1 million) in state aid from the government of Croatia to energy storage operator IE-Energy for a series of grid-connected projects. The aid will be a direct grant to IE-Energy and will cover approximately 30% of capital expenditures for a series of grid-scale battery energy storage systems.

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brussels for a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

Will ie-energy be the biggest energy storage project in southeastern Europe?

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe.

Will ie-energy accelerate the decarbonization of Croatia's energy sector?

In addition, it will accelerate the decarbonization of the Croatian energy sector, according to the announcement. IE-Energy is based in Rijeka, Croatia's fourth-largest city. It joined the intraday and day-ahead markets at the Croatian Power Exchange (CROPEX) last year. Documents reveal the project is scheduled to start on December 1.

Will ie-energy build the biggest battery system in southeastern Europe?

IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe. The European Commission has approved, under the European Union's aid rules, a EUR 19.8 million Croatian aid measure in favor of energy storage operator IE-Energy.

Is there a storage facility in southeastern Europe?

There is no storage facility in Southeastern Europe yet with such a capacity. Of note, a 250 MW project is under development in Turkey, with an envisaged capacity of 1 GWh. The batteries would be used for balancing services for the independent Transmission System Operator in Croatia (HOPS), domestic media reported.

What's new: Chinese manufacturers of batteries used in energy-storage projects should double down on their overseas expansion as they face a supply glut and fierce competition at home, according to a new white paper.. Companies can export more products or localize production overseas, according to the document jointly released by the China Energy ...

Chinese EV and BESS firm BYD will supply the energy storage technology for two of IPP Greenvolt Power's

BESS projects in Poland. Skip to content. ... Ukraine's KNESS gets loan from state-owned bank for battery storage project. March 27, 2025. KNESS has secured a EUR9.6 million (US\$10.35 million) loan from Oschadbank for a battery storage ...

New Energy Enterprises "Going Abroad" Series of Sailing to Southeast Asia. New energy enterprises are seeking overseas business opportunities due to fierce domestic competition. In the new energy sector, technological advancement and efficiency improvements are making new photovoltaic and wind power projects less expensive.

In September 2020, Energy-Storage.news reported on a EUR20 million grant from the EU to Croatia-based energy storage operator IE-Energy for the firm to deploy projects in the country. In April, Croatia and its neighbour ...

IE-Energy, a startup company based in Rijeka, received approval for a subsidy of 19.8 million euros for the project to build an electrical energy storage system at the grid level. ...

Based on the semi-annual reports of overseas energy storage companies in 2023, it's evident that the demand in the global energy storage market remains robust, and the profitability of large-scale energy storage firms continues to show improvement. The worldwide energy storage market is experiencing rapid expansion.

Crimson Energy Storage, the largest battery system to have been commissioned in 2022 at 1,400MWh. Image: Recurrent Energy. A roundup of the biggest projects, financing and offtake deals in the sector that Energy-Storage.news has reported on this year.. It's been another landmark year for energy storage, part exemplified by the following news stories which marked ...

Independent energy storage construction and operation companies can also self-operated power stations to participate in the electricity spot trading market, ... the Haiyang 101 MW/202MWh energy storage power station project putted into operation, and energy storage participated in the market model of peak regulation application ancillary ...

Construction of the Rochi Energy Storage Project in Angren District of Uzbekistan is now underway. Invested and built by China Gezhouba Group Overseas Investment Co., Ltd., a subsidiary of China Energy Engineering Group Co., Ltd (Energy China), the project is the largest electrochemical energy storage project invested by a Chinese enterprise overseas.

Minister of Energy Sebastian Burduja signing 24 financing contracts for self-consumption solar and storage projects, worth nearly EUR14 million. Image: Ministry of Energy. A 204MW battery energy storage system ...

As a result, household energy storage systems have become essential household appliances for local residents. Furthermore, the net-metering policy rebate and the introduction of household energy storage subsidies in ...
